

AERONAUTICAL AND INDUSTRIAL TECHNOLOGY, CONCENTRATION —AVIATION FLIGHT TRAINING
ACADEMIC MAP: DEGREE BS (120 CREDIT HOURS)

This degree map is a semester-by-semester sample course schedule for students majoring in **Aeronautical and Industrial Technology (AIT) with a concentration in Aviation Flight Training**. The milestones listed to the right of each semester are designed to keep a student on track to graduate in four years. The schedule serves as a general guideline to help build a full schedule each semester. Milestones are courses and special requirements necessary for timely progress to complete a major. When one or more milestones are missed, students should consult with an academic advisor to determine if another degree path would be more suitable.

The Aviation Science Program with a concentration in flight training is designed to provide a coordinated platform of study combining liberal arts with concentrations in Aviation Flight Training. This plan of study leads to a Bachelor of Science Degree. Flight training is conducted through affiliate flight training schools located within a ten-mile radius of the Main Campus. Fees for training represent an additional cost to the student and are subject to market driven forces. For a list of affiliate flight schools and related costs, please contact the AIT Department Head.

Academic credit for pilot certificates and ratings will be in accordance with FAR Part 141 or 61 and in accordance with pertinent University policies. Incoming freshman and transfer students must make an appointment with the Departmental Chair in order to have their FAA Certificates properly evaluated and documented.

No student will be allowed to take any Departmental courses, major courses, engineering courses, mathematics and/or science courses without having a successfully completed the proper pre-requisite for those courses. Students earning a grade “D” or lower in a mathematics course(s), or a major course (s) the very next time the course(s) is offered. All “D” grades earned in mathematics, science, departmental or major courses must be repeated the very next time the courses are offered until a minimum grade of “C” is earned. However, students may graduate with a maximum of two “D” grades in these courses.

Tennessee State University recognizes that students have diverse learning, life, and professional experiences. The University provides opportunities for students to earn college credit toward the degree through a number of assessment options that evaluate their learning experiences. These paths are grouped under the category “Prior Learning Assessment” (PLA). Various means of earning PLA credit at TSU are the following: Advanced Placement Program, American Council of Education (ACE) Military Credit, College Level Exam Program (CLEP), DSST Credit by Examination Program (includes DAN TES Examination), Institutional Course Challenge Exams (Departmental Exams), International Baccalaureate Credit, Other Military Service, Portfolio Assessment. To learn more about PLA contact your academic advisor or the Office of Student Support Services for Adult and Distance Learners at (615) 963-7001 or adultstudentsupport@tnstate.edu.
