

**CARDIORESPIRATORY CARE SCIENCE ACADEMIC MAP:
 DEGREE BS (120 CREDIT HOURS)**

This degree map is a semester-by-semester sample course schedule for students majoring in **Cardiorespiratory Care Science**. The milestones listed to the right of each semester are designed to keep a student on track to graduate in four years. The schedule serves as a general guideline to help build a full schedule each semester. Milestones are courses and special requirements necessary for timely progress to complete a major. When one or more milestones are missed, students should consult with an academic advisor to determine if another degree path would be more suitable.

Respiratory Care (CRCS) is a profession which provides direct patient care through the administration of various treatment modalities and medications, performs diagnostic procedures, and manages sophisticated life-support equipment. Patients range from premature babies to elderly adults who suffer from a variety of cardiopulmonary disorders. Although the majority of respiratory care practitioners are employed by hospitals, there are also opportunities to practice outside of the standard hospital setting. Students learn in the classroom, laboratory and in the clinical environment to prepare to be a Registered Respiratory Therapist.

Students who wish to pursue the Bachelor of Science degree in Cardiorespiratory Care Science (CRCS) must apply to the CRCS Admissions Committee for acceptance. Students must be formally admitted to the Cardiorespiratory Care Science Program in order to take professional courses which begin in the junior year. See the Admissions Procedure for the Cardiorespiratory Care Science Program at <http://www.tnstate.edu/cardio/admission.aspx>. Applicants will be **screened and interviewed** by the CRCS Admissions and Retention Committee and will be advised of the final decision regarding acceptance into the program by a representative of the Committee.

Students are expected to maintain 2.0 cumulative GPA and earn grade of "C" or above (equivalent to 75%) in all professional coursework, science/ math coursework, and to meet university general education requirements. Failure to do so may result in dismissal from the Program. Withdrawal from any Cardiorespiratory Care Science course or failure to register for any semester without prior written approval from the Program Director will result in dismissal from the Program. See the Retention Policy of the CRCS Program in the CRCS Student Handbook for more information.

Tennessee State University recognizes that students have diverse learning, life, and professional experiences. The University provides opportunities for students to earn college credit toward the degree through a number of assessment options that evaluate their learning experiences. These paths are grouped under the category "Prior Learning Assessment" (PLA). Various means of earning PLA credit at TSU are the following: Advanced Placement Program, American Council of Education (ACE) Military Credit, College Level Exam Program (CLEP), DSST Credit by Examination Program (includes DANTES Examination), Institutional Course Challenge Exams (Departmental Exams), International Baccalaureate Credit, Other Military Service, Portfolio Assessment. To learn more about PLA contact your academic advisor or the Office of Student Support Services for Adult and Distance Learners at (615) 963-7001 or adultstudentsupport@tnstate.edu.
