Sampling of Supervisor/ Evaluator Comments

“Dr. Johnson is a man of high character and integrity. He has good intentions in his actions and outstanding moral character.”

(P. Millet, Dean College of Education 2012)

“Dr. Johnson is high energy with a very analytical mind which allows him to see the big picture.”

(G. Carlson, Dean College of Education 2004)

“There is no question that Dr. William E. Johnson makes a definite impact on the operations of the United States Sports Academy through his dedication, extra hours of hard work, and personal support for those around him. However, the most impressive testimonial to Bill’s contributions and performance is the respect and affection directed to him by those with whom he works.”

(A. Schellhase, Chief Information Officer 2003)

“Bill is a very bright personable person with a great insight to the operation, motives and management of higher education systems. He has been tapped by many universities to assist them in their curricular development, program expansion and accreditation preparation, and has led departments and faculties through some very difficult situations. Throughout the many years that I have known him, his ability to see through the ‘noise of activity and emotion’ and cut right to the central issue and rectify it, still amazes me. He works well with people and enjoys collaboration.”

(M. Hall, University Faculty 2007)

“He is a dedicated and dependable leader who brings a tremendous amount of energy and enthusiasm to the department and university. In both the school and the community, Dr. Johnson is recognized as an outstanding leader.”

(N. De Laneuille, University Faculty 2004)

“Bill has had meaningful administrative experience in three diverse settings. He is one of the more experienced professionals in the nation in terms of external accreditation. He has been an active participant in the NASPE/NCATE process as well as in CAAHEP accreditations. Perhaps more importantly, his experience in these areas has each culminated in a successful review.”

(M. Finkenber, University Administrator 2006)

“Dr. Johnson has demonstrated in his Los Angeles Olympic Organizing Committee Leadership and his appointments at culturally diverse universities, his ability to resolve conflict, work effectively in small and large groups, and is a tribute to his strong interpersonal skills.”

(V. Chadwick, University Faculty 2003)

“Dr. Johnson goes above and beyond to help our school move forward”

(I. Almazan, Assistant Principal 2007, 2008)

“Dr. Johnson's engaging and creative approach to working with students makes him effective in a wide variety of settings. It is with this same perceptive nature that Dr. Johnson can focus a small group of students or command the attention of an entire auditorium.”

(N.Gutierrez, Principal 2009)
