

“Frontiers in Ecology and Evolutionary Biology”

Place: Formal Seminar
Holland Hall Room 102
Time: **Friday, 11:30 – 12:30PM**

Informal Chalk Talk
Holland Hall Room 124
Friday, 2:00 – 5:00PM

January 25	Katja Schulz Managing Editor/Tree of Life Project University of Arizona tolweb.org	The Tree of Life: Biodiversity from a phylogenetic perspective
February 1	Focus The Nation Headquarters 4160 SW Haven St. Lake Oswego, OR 97035 http://www.focusthenation.org/2percentsolution.php	FOCUS THE NATION –Global Warming Solutions for America- VIDEO Presentation
February 8	Richard J Norby Distinguished R&D Staff Member Environmental Sciences Division Oak Ridge National Laboratory http://www.ornl.gov/~rjn	Will CO2 fertilization of forests counteract global warming?
February 15	Tom Byl Visiting Research Professor Civil and Environmental Engineering Tennessee State University	Advances in Water Quality Research made by TSU Students over the past Ten Years
February 22	Michael L Rosenzweig Professor, Ecology and Evolutionary Biology Director, The Alliance for Reconciliation Ecology University of Arizona http://winwinecology.com	Size Matters: Why the Earth's species are headed for a mass extinction and how pleasant it will be to prevent it.
February 29	Bill Purcell Former Mayor of Nashville Dean, College of Public Service and Urban Affairs. Tennessee State University http://coolcities.us/cityProfiles.php?city=127&state=TN	Can Cities Change The World?
March 28	Samuel J McNaughton Professor, Environmental Science Syracuse University http://biology.syr.edu/mcnaughton/index.html	Serengeti Ecosystem: Can science contribute to conservation policy?
April 4	Margaret Riley Professor, Biology Department University of Massachusetts Amherst http://www.bio.umass.edu/biology/faculty/riley.phtml	Molecular evolution of experimental populations
April 11	Journey to Planet Earth PBS Series Screenscope, Inc. in association with South Carolina ETV. Produced by Marilyn and Hal Weiner Narrated by Matt Damon	Journey to Planet Earth: The State of the Planet VIDEO Presentation
April 18	Dan Simberloff Professor, Ecology and Evolutionary Biology University of Tennessee http://eeb.bio.utk.edu/simberloff.asp	Introduced species: A probe for the determinants of community structure
