

Agriculture is more than just farming - it's thousands of careers in a variety of fields including science, technology, engineering, math and much more. The agriculture industry needs talented, driven and passionate young people interested in helping feed, clothe and fuel the world.

Monsanto is committed to recognizing high achieving minority students pursuing advanced degrees in agriculture and STEM related fields. The Monsanto Graduate Student Scholarship is part of Monsanto's broader focus on innovation and investment in agriculture. Investing in future leaders pursuing STEM careers in food and agriculture is key to meeting the challenges the world faces in feeding nine billion people by 2050. Monsanto will award **10 (ten) \$25,000** scholarships to selected students pursuing a graduate degree. [Apply now!](#)
