

Research Methods  
AGSC 5110  
Homework #2 (30 points)  
Due: March 9, 2020

Using the 10 articles downloaded last week (more than 10 would be a good idea), write a literature review that ends with at least two specifically-stated objectives. If you have not begun a project yet, these objectives can be fictitious but must still relate to your overall literature review.

Include in-text citations.

Length should be at least 3 full-length double-spaced pages.

Add a 4th page containing a references section.
