

Empower students with next-gen technology.

Free summer STEM enrichment program for middle school students

Every student deserves access to a better future. That's why we've launched the Verizon Innovative Learning STEM Achievers program—an engaging, hands-on program developed to enrich learning through design thinking, 3D printing, augmented reality, social entrepreneurship and mentorship. This program creates a more diverse pipeline for future careers in science, technology, engineering and math (STEM) fields; no prior knowledge or experience is required.

 The program takes place over the course of two 3-week sessions. July 10 - July 28, 2023 from 8:00 AM - 4:00 PM
Session 1: Grade 6 | Session 2: Grade 7 & 8

 Tennessee State University

For more information, please contact
