GENERAL INFORMATION.

Establishment.

The establishment of the Tennessee Agricultural and Industrial State Normal School for Negroes was authorized by an act of the State Legislature in 1909 under what is known as the General Education Bill which provided an annual appropriation for the maintenance of such a school for the colored people of the State.

Purpose and Scope.

The Agricultural and Industrial Normal School for Negroes has been established by the State of Tennessee for the purpose of preparing colored teachers and leaders to meet fully the demands for more efficient and practical service in the public schools and in life.

In carrying out this purpose it is the aim of the institution to so impart knowledge, discipline the mind, train the hand and influence the heart of its students that they shall go out of the school fully qualified to discharge every duty faithfully and well.

The Academic Department will take those who have finished the courses of various grades in the cities and counties of the State and prepare them for the Normal or Professional courses.

In the Normal or Professional department the prescribed literary course is taken with the choice of electives. The electives are as follows: Teaching, Agriculture, Home Economics, Trades, Business.

Considerable time will be given for practice teaching in the Model School under the supervision of the Training School teachers.

(14)

Industrial Training.

Industrial Training is given all students.

By means of it, the student will find pleasure in bodily labor and respect for it; form habits of order, accuracy, attention and industry; receive increase of physical strength, power of observation through the eye and of execution by the hand.

Instruction in domestic science and domestic art is given according to the latest scientific methods with special reference to their practical application in the home.

Home Life.

We endeavor to make the home life of those residing in the institution pleasant and profitable, both to themselves and to the communities to which they will return.

Habits of tidiness and taste in the arrangement and care of the rooms are inculcated.

Special attention is given to our girls in order to train them in matters pertaining to dress, health, physical development and the simple rules of good manners. They are under the constant care of the preceptress and other female teachers who give them kind and helpful instruction as needed. The men's dormitory is also in charge of an experienced preceptress who sees that the rights of the young men are carefully guarded and their needs faithfully met.

Athletics.

The State Normal School is strongly in favor of Athletics and provides ample opportunity for such exercises among its students—not as a substitute for, but as an aid to efficiency.

Control and Location.

The general management and control of the Colored Normal, as in the case of all Tennessee's State Normal schools, are vested in the State Board of Education and it is due to their wisdom and liberal spirit that this school is so happily located and its material equipment is so thoroughly modern and well appointed for the purposes it is to serve.

The immediate location of the school is on a bluff, the site of a civil war fort commanding a bend of the Cumberland River. The site selected by the Board is one of the most desirable around Nashville. The campus which is included in the corporate limits of the city begins at the intersection of Centennial Boulevard and Thirty-fifth Avenue. It is on high ground amid healthy surroundings and commands magnificent views.

Electricity, water and car service are supplied by the city.

Hadley Park recently purchased by the city for her colored citizens is within short walking distance from the school grounds.

Buildings and Equipment.

The building include a main, or Academic building, two dormitories for women and men, the trades building with heating plant, residence for the President, two barns and several farm houses.

The main building is a modern brick and stone structure, three stories in height. In it are the offices, laboratories, recitation rooms, library, reading room, auditorium, dining hall, kitchen and laundry—in all, forty rooms.

The Auditorium with gallery will accommodate nine hundred persons. The class rooms are furnished with modern desks and recitation seats and the laboratories will be fully equipped with all needed apparatus and supplies.

The Industrial Training Department occupies commodious quarters. The Manual Training rooms are fitted up with the most modern initial equipment, and the students in this department are taught to make additional equipment as it is needed.

The trades building is fitted out with its necessary machinery which is run by two big electric motors.

The school will open this fall with more than 2,000 books listed in its library. These books have been selected to meet the peculiar need of instruction and to suit the conditions of the rural communities from which we select our student. Over seventy-five leading magazines and periodicals are on file for the

use of the students. A spacious, excellently lighted and ventilated reading room is accessible to all who use the library. A competent librarian has been placed in charge of the library.

The young men and young women are exceptionally fortunate in having modern and comfortable quarters. The Dormitory buildings are three story bricks with steam heat, electric lights, bathrooms with hot and cold water, large bright and well ventilated outside bedrooms, with two large clothes closets in each. Each room is furnished with shades, iron enameled bed, springs, mattress, dresser, washstand, center table, a straight chair and a rocker. The young people have taken pride and interest in their rooms to buy window and closet curtains, table and stand covers. They have fitted up at their own expense reading rooms and hospital rooms.

All the work in the buildings is done by the students under the supervision of two excellent matrons who rotate the work so as to give a complete round of house keeping and nurse training experiences to each student, and at the same time hold before them a high standard of living. The laundry which is under an experienced matron has recently been fitted with machinery: steam washer, extractor, mangle and electric irons. The machinery is operated by students.

Nashville an Educational Center.

The city of Nashville is justly called the "Athens of the South." Among its hundred or more institutions of learning, which provide opportunity for all phases of education and of every grade from the Kindergarten to the University, are included the following excellent schools for the Negro race:

Fisk University, Roger Williams University, Walden University, Meharry Medical School, Academy and Industrial School of the Immaculate Mother, Daniel Hand Training School, the Firsides School, and the Nashville Institute and others.

It is in such an educational atmosphere that the State Normal is located to do a work in some respects distinct, but in final aim and purpose in perfect harmony with all the rest.

Entrance Requirements.

Old Students—All old students and new students are requested to fill out the application blanks found in the back of the catalogue and mail same to President Hale, A. and I. State Normal.

Admission—The Tennessee Agricultural and Industrial State Normal School is open to both sexes of the Negro race. Its complete facilities are free to all Tennessee students. There are no tuition charges and the only fee collected is a registration fee of Two Dollars for each term, twelve weeks.

Students who do not reside in Tennessee are charged a tuition fee of Six Dollars a term, in addition to the regular registration fee, which must be paid in advance.

Applicants for admission to the boarding department must be at least sixteen years of age.

All who propose coming should be present on the FIRST DAY of school and remain until the close of the session.

Moral Character—Testimonials of good character will be required of applicants. None but worthy persons will be tolerated. This is not a reform school.

It is the policy of the administration to issue as few formal rules as possible, but every student on entering must agree to conform to the arrangements and requirements of the institution.

When it shall become evident that a student has no settled purpose to study, he will be dismissed.

No one should think of becoming a teacher or leader, who is not qualified to exert a wholesome moral influence upon the lives of children, and the State is under obligation for the professional training.

Health—No applicant will be admitted who cannot furnish evidence of being strong physically and free from chronic defects that would prevent satisfactory work as a student or hinder his success as a teacher.

Text Books and Credentials—Students should bring such text-books as they last used, but should also be supplied with Four or Five Dollars, in addition to the registration fee, to purchase such books as may be needed immediately and for incidentals.

New pupils should bring any diplomas, certificates or report cards in their possession showing character of work done in schools previously attended.

Since Students are required to attend Sunday School and other religious exercises, each is advised to possess a Bible.

Scholastic Requirements—A knowledge of common and decimal fractions, ability to read fairly well, and to compose and write a letter in a legible hand are necessary to enter.

Students who have finished high school courses of less than four years may be given advanced credit.

For admission to the Normal or professional courses, graduation from an approved high school or equivalent scholarship is required. If the student has done College work, just credit will be given for all the scholarship the applicant may possess, but the diploma of the Normal school will not be awarded for less than one year's residence work.

The Training or Model School admits pupils from the first to the eighth grade of the public school.

Expenses.

Tuition fee to students residing in Tennessee.

Non-residents are charged \$6.00 for each of the regular terms and \$3.00 for the Summer Session.

All Registration fees must be paid at the beginning of the term.

All bills for room and board are due on the days indicated and must be paid in advance. All are encouraged to pay for a full term at the time.

Sept. 14, due \$2.00—Registration Fee—1st Term.

Sept. 14, due \$9.00—Room and Board from Sept. 14 to Oct. 12.

Oct. 12, due \$9.00—Room and Board from Oct 12 to Nov. 9.

Nov. 9, due \$9.00—Room and Board from Nov. 9 to Dec. 7.

Dec. 7, due \$4.50—Room and Board from Dec. 7 to Dec. 21.

Total Board, \$24.50; room rent, \$7.00; Registration fee, \$2.00.

Total expenses for Fall Term, \$33.50.

Jan. 3, due \$2.00—Registration Fee—2nd Term.

Jan. 3, due \$9.00—Room and Board from Jan. 3 to Jan 31.

Jan. 31, due \$9.00—Room and Board from Jan. 31 to Feb. 28.

Feb. 28, due \$4.50—Room and Board from Feb. 28 to Mar. 13. Total Board, \$17.50; Room rent, \$5.00; Registration fee, \$2.00.

Total expenses for Winter Term, \$24.50.

Mar. 13, due \$2.00—Registration fee—3rd Term.

Mar. 13, due \$9.00—Room and Board from Mar. 13 to Apr. 10.

Apr. 10, due \$9.00—Room and Board from Apr. 10 to May 8.

May 8, due \$9.00—Room and Board from May 8 to June 1.

Total Board, \$21.00; room rent, \$6.00; Registration fee, \$2.00.

Total expenses for Spring Term, \$29.00.

Grand total expenses for the year, \$87.00. This does not include the small expense for books, etc.

All students' laundry will be done free in the school laundry. Board, includes meals, room, heat, light and bath, \$9.00 for four weeks.

Uniform suit for girls, \$8.00 to be made at school; uniform hat for girls, \$1.00 to \$2.00.

Every student is required to give the school one hour's work each day.

Make all checks and money orders payable to A. and I. State Normal School.

Instrumental Music, stenography, typewriting may be had for \$2.00 per calendar month. This is aside from the regular fees.

What to Bring.

Boarders in the school should bring one pillow, three pillows, two pairs of sheets, one blanket, one comfort, one bed-spread, three table napkins, six towels, one tooth brush, toilet soap, one napkin ring, one drinking glass, rubbers, umbrella, rain coat; something to beautify the room—pictures, sash curtains and doilies for dresser, table and washstand.

How to Reach the School.

At the railroad station, ring Main 1385, board any ingoing car to the transfer station. Out of the transfer station take the Jefferson street car and go to the end of the line. The school is about fifteen minutes' walk from this point.

Students notifying us before hand of exact time and depot of arrival will be met at the station.

Clothing.

In the interest of good health every young woman entering school should be provided with warm and comfortable clothing for winter.

Simplicity, neatness and economy in matters of dress by our students of both sexes will be insisted upon. In line with this idea a uniform has been adopted for the young women, consisting of a uniform dress and hat. Boarding students especially will be expected to wear the uniform. It may be purchased through the school at a saving of at least one-third of the retail price.

RULES AND REGULATIONS FOR STUDENTS

1. Students must report at Business Office as soon as arrival to arrange for entrance. No student admitted in boarding department under the age of fifteen.
2. All students' rooms must be kept ready for inspection at all times. Occupants of any room are directly responsible for any improper conduct within, and for any damage done to the room or furniture while used by them.
3. Gambling, card-playing, use of tobacco and intoxicating drinks, use of obscene language, visiting places of vice, and behavior not suited to the school's welfare, are strictly prohibited.
4. No fire-arms, gun-powder, or anything liable to endanger life or property, must be brought upon the grounds.
5. Any boarder desiring to leave the city or to absent herself or himself from the school over night must first get permission from parents or guardians, then from the Matron and President's office.
6. Girls must not leave campus unless chaperoned by a teacher or some one named by the President and Matron. Boys must not leave Campus unless given official permission.
7. No student is to be absent from meals, school, or any chapel exercises without authority.
8. No gentlemen shall call on young ladies except on regular calling days or with special permission from President or Matron.

9. Each boarding student must give the school one hour's service daily to help meet his or her expenses.
10. Any student violating any of the foregoing rules is subject to such discipline as the school sees fit to administer.

DESCRIPTION OF COURSES OF STUDY AND CERTIFICATES.

Two distinct courses of study for the State Normal School have been prescribed by the State Board of Education, as follows:

ACADEMIC COURSE.

1. The Academic consists of four years of thirty-six weeks each. The course includes the high school subjects, and in addition there are courses in School Management, History of Education, Methods and Practice of Teaching.

The Academic Course is to prepare teachers for the rural schools, elementary schools of the State, and on its completion the student is given a certificate that will permit the holder to enter the Normal Course of the State Normal School and will entitle him to receive, without examination, a State certificate to teach in any elementary school of the State, the same to be granted under the authority of the State Superintendent of Public Instruction.

NORMAL COURSE.

2. The Normal Course consists of two years of thirty-six weeks each. This course includes the academic subjects found in the Freshman and Sophomore years of college and professional work, including General and Educational Psychology, History of Education, School administration, Child Study, Methods, Observation and Practice Teaching, Rural Supervision, Canning, Corn and Tomato Club work, etc. This Normal Course aims to prepare teachers for any of the Colored schools of the State, and on its completion the student is entitled to a diploma which entitles him to teach in any county for a period of five years without examination.

NORMAL SCHOOL CERTIFICATES.

In the General Education Bill, Acts of 1909, Chapter 264, Section 7, it is provided that "a certificate of graduation from any one of the State Normal Schools shall entitle the holder thereof to teach in any of the public schools of the State, without examination, for a period of four years from the date of the certificate. Any such graduate who completes within the said period of four years such course prescribed by State Board of Education, and shall pass the required examination, may upon application be granted a permanent license to teach in any of the public elementary schools of the State.

In the Acts of 1913, Chapter 40, Section 6, it is provided that "professional certificates shall be issued by the State Superintendent of Public Instruction as follows:

1. An elementary certificate of the first grade to the applicant who has completed the Academic Course of the State Normal School.
2. A certificate good, except high schools of the first class, to the applicant who has completed the Normal Course of the State Normal Schools.
3. All certificates granted by the State Superintendent of Public Instruction on Diplomas of the State Normal Schools shall be good in any county in the State.

DEPARTMENT OF AGRICULTURE AND CHEMISTRY.

Courses.

1. A four-year course in Agriculture.
2. A one year course in Agriculture.
3. A twenty-four weeks course in Agriculture.

The object of the four year course is to give the student a thorough and practical Agricultural education and is designed for those students who intend to make agriculture their life's work as agricultural teachers, superintendents or scientific farmers. Therefore the course is so divided that equal time can be given to technical, scientific and practical instruction.

The one-year course is especially designed for those finishing the Normal course who intend to make rural teaching their principal work and who can not afford to spare time for the regular course, but wish to get only such instructions as bear directly on their chosen work. In this course special stress is laid on such subjects as dairying, soils, plant life, seed testing, simple classroom experiments, farm and community life, organization of Farmers' Institutes, Corn and Tomato Clubs relation of the church and Sunday school to the farmer, etc., while a text book will be placed in the hands of the student the work will be given principally by lectures.

The twenty-four weeks course is designed to meet the needs of the students who finish from the Grammar school and temporarily engage in teaching. These will be given elementary Agriculture and such Laboratory work as will appeal to the boys and girls in the rural districts.

Methods of Instructions.

Instruction is given by laboratory work, especially selected text books and lectures both by teachers in charge and experts from the Department or Agriculture. The scientific equipment in the new chemical and physical laboratories is excellent. All class room work is supplemented by actual work on the farm, in the dairy, green house, laboratories, etc.

Equipment.

The school owns a campus of thirty-five acres consisting of beautiful hills and valleys covered with a great variety of native trees, shrubs and wild flowers, which offer a great opportunity for botanical and horticultural work. In addition to this it has a farm of 100 acres under actual cultivation. Plans have been approved for a two story dairy barn with all modern equipment including a hundred and thirty ton silo. The dairy building is to be modern in every respect and the equipment for butter making and general handling of dairy products will be of the latest improvement. The dairy herd will consist of specially selected Jersey and Holstein cows.

The farm is well stocked with teams and equipped with the latest improved farm machinery and labor saving devices. The cultivation of such crops as wheat, corn, oats, rye, cow peas, soja beans, beets, wurzel, potatoes, clovers and all general farm crops gives the student practical experience in handling farm tools as well as the most profitable methods of rotation.

Experiments are also being made under the direction of the Department of Agriculture to illustrate the effects of different methods of cultivation and fertilization as well as variety tests.

The green house will not be run on a commercial scale, but is intended to aid the student in the study of Botany and care of flowers as well as forcing early plants for the farm.

There is a well planned system of hot beds and pipes for artificial watering which enables the student to become thoroughly familiar with the latest principles of market gardening, not only on its farm but on city lots.

Practical Horticulture.

I. *Greenhouse Management, Care of Campus.*—The student is given actual practice in the management of the greenhouse as well as the growing of roses, carnations, narcissus, and foliage plants for campus and inside decorations. For First and Second Year, Lectures, Fall Term.

II. *Propagation of Plants*—In addition to the class work the student is given actual practice in making, cutting, grafting potting plants, etc., also insecticides and fungicides are fully discussed for First Year; Text, Fuller.

III. *Market Gardening.*—A careful study is made of those crops best suited to Tennessee. In the addition to the text, the student gets actual practice in the construction and care of hot beds and cold frames, transplanting, etc., fertilizers used in forcing plants for early market gathering; crating, marketing, etc.

Second year Spring term. Text, Market Gardening. (Bailey)
IV. *Small Fruit.*—Latest methods of propagation, cultivation, spraying, pruning and preparation of the soil for all classes of small fruits are freely discussed.

For Third Year—Winter term, Text Fuller.

V. *Pomology.*—Orchard management from a commercial point is taught in the most practical way. Planting, pruning, spraying, fertilizing, cultivating, picking, packing and marketing are thoroughly discussed. Second year Fall term, Text, Fruit Growing, Bailey.

VI. *Landscape Gardening.*—This subject is taught in the most practical way from the text and by lectures. The fundamental principles of embellishing landscape, planning school grounds and private lawns, planting and grouping of trees, shrubbery, etc., are clearly set forth. First year, winter term. Landscape Gardening (Maynard.)

VII. *Practical Botany.*—Such subjects as how plants feed from the soil and air; the effects of light, heat, and moisture, plant diseases and remedies are discussed in the most practical way. Also the different kinds of plants such as Mosses and Lichens, Yeast and Fungi are discussed. Fourth year, Spring term, Text Elementary Botany (Bailey).

AGRICULTURE.

Agronomy.

I. Farm Management—Special emphasis is laid on the selection of a farm, the advantages of proper location, planning and equipment. Farm accounts and the cropping system are freely discussed. Given both by recitation and lectures. Fourth year, Winter term; Text, Card's Farm Management.

Agricultural Physics.

II. General Physics taught in the Academic department paves the way for Agricultural Physics which is given both by recitations and laboratory work. Retention of moisture, deep and shallow cultivation, construction and proper ventilation of farm buildings, road building, draft of farm machines, etc., are fully discussed. The rate of capillarity and percolation of water through different soils and mulches, specific heat and specific gravity as well as the mechanical analysis of soils, are all demonstrated by the use of the latest apparatus for soil testings.

Fourth year, Fall term and Winter term; Text, Soil Physics (King.)

III. Farm Crops.—This subject is made very clear by recitations, lectures and actual practice on the farm. The origin, production, seeding, cultivation, harvesting and marketing are discussed in the most practical manner. Also the preparation of soils, value of fall plowing, rotation of crops is clearly set forth. Third and Fourth year Spring term.

Animal Physiology.

I. Such subjects as the structure and function of bone, muscles, joints and the various organs of the body receive special attention. Disease and its prevention, sanitation, disinfectants, ventilation, etc., are freely discussed.

First year, Text, Laws Physiology of Domestic Animals.

Veterinary Science.

II. The Common diseases and injuries which affect domestic animals, their diagnosis and treatment receive special attention. Also practical work in caring for sick animals and testing for tuberculosis, etc., is provided the student when such work has to be done on the farm or in the community. In addition to the regular class room work special lectures will be given by experts from the Department of Agriculture.

Third year, Spring term; Text, Hopkins.

Animal Husbandry and Dairying.

I. Animal Breeding—

The scientific principles underlying successful breeding are taught in the most practical manner. The subjects of selection, atavism, variation, heredity, line breeding, cross breeding and in and in-breeding are fully discussed. For third year, Fall term; Text, Shaw's Animal Breeding.

Feeds and Feeding.

II. The laws of nutrition and the composition of the animal body are discussed in order that the student may see the need of, knowing the composition and digestibility of feeding stuffs. The practical application of the nutritive ratio is made by actually compounding rations for animals on the school farm. Text, Feeding of Animals (Jordan).

For Fourth year, Spring term.

Stock Judging.

The origin, history and special points of the various breeds of horses, cattle, swine and sheep are studied both from the text and lectures, with the specimens in question actually before the class. During the term some of the most improved Tennessee farms will be visited for the purpose of score card work, etc.

Third year, Winter term; Text, Judging of Live Stock (Craig).

Dairy Management.

III. The fundamental principles underlying successful dairying are studied in the most scientific and practical way. In addition to the text, lectures will be given throughout the year on such subjects as selection of dairy sites, herd, and general arrangements of both farm and dairy equipment, also secretion, composition and production of milk, milk and cream testing, butter and cheese making are done in such a scientific and practical way as to enable the student to hold his own in any well regulated dairy.

Third year, entire year—Texts, Milk and Its Products; (Wing), and Two Condensed texts on Butter and Cheese making (Monrad.)

ENTOMOLOGY AND BACTERIOLOGY.

Entomology.

I. While a text book will be used as a basis, a number of special lectures will be given on the most common insects both destructive and beneficial to the farmer. Insecticides and other methods of combating insect pests will be discussed. Actual specimens will be provided as far as possible.

For Fourth year, Spring term, Text, Constock's Insect Life.

Bacteriology.

II. In addition to the text, lectures are given on the nature of bacteria, their relation to other plants, farm products and animal diseases, methods are given by which their action may be checked or hastened as desired. In the laboratories the student is given practice in making cultures and studying the various forms under the microscope.

For Fourth year, Fall and Winter term; Text, Agricultural Bacteriology. (Conn.)

Poultry Husbandry.

The importance of this industry is clearly set forth. Location, and construction of poultry houses both on large and small scale are discussed. Selection and study of breeds, feeds and feeding, selection of eggs for incubation and the proper care of young birds receive careful attention. Notes are given on diseases and remedies for same. The school is now planning to install a plant which will provide actual practice in this department.

For Fourth year, entire year.

COURSE IN CHEMISTRY.

The equipment of the chemical laboratory is first class in every respect, thus enabling the student to perform all experiments relative to his work. In addition to chemical apparatus the laboratory is also equipped with the necessary apparatus for a thorough and practical course in agricultural physics.

General Chemistry.

I. This course not only teaches the student the names of chemicals, apparatus, symbols, equations, etc., but the experiments performed pave the way to agricultural chemistry.

For Second year entire year; Text, Huston's Elements of Chemistry, including lectures and notes.

Qualitative Analysis.

II. In this subject the student learns how to test for the various elements which enter in to the composition of plants and animals.

Fall term, Third year; Text, Qualitative Chemical Analysis (Evans). Including lectures and notes.

Quantitative Analysis.

III. Instruction is given in the analysis of fertilizers, feeding stuffs and other compounds with which the farmer ordinarily deals. With this knowledge the student can use to better advan-

tage the bulletins sent out by the various experiment stations on the composition of Agricultural products.

For Fourth year, Fall term; Text, Quantitative Chemical Analysis (Evans).

ELEMENTARY AGRICULTURE FOR SENIOR CLASS.

This subject is taught both from the text and mimeographed notes. The winter term is devoted to the study of our common farm animals, common insects, useful and harmful birds, etc., also the study of soils, composition, improvement, tillage, etc., selection, use and care of farm tools are also discussed. During the spring term the management of farm crops and the school garden will be taught both theoretically and by actual work on the farm and the school garden.

Text, Elements of Agriculture (Nida).

APPLIED AGRICULTURE FOR SENIOR NORMALS AND FOURTH YEARS ACADEMIC.

This course is made as practical as possible. During the fall term lectures will be given on Agriculture as needed in the public school, simple experiments, illustrating osmosis, etc., will be given. Treatment of different soils, especially the building up of run down soils will receive special attention. Plants, their growth, and adaptation to different soils will also be discussed. The judging of farm animals will find actual practice by examining the animals owned by the school and also by visiting some of the near by stock farms. The use and value of the score card etc., will be explained.

During the Winter term, community life and conditions as they exist in the rural districts will be discussed, also how to reach the farmer through the public school.

The Spring term will be devoted to rural economics and actual teaching in some of the lower grades under the direction of the teacher in charge.

Text, Country life and the Country School; also Rural Economics; (Carver).

Four Year Agricultural Course—First Year.

Practical Horticulture
Landscape Gardening

Animal Physiology
Greenhouse Management

Second Year.

Botany
Pomology

Poultry Husbandry
Market Gardening

Third Year.

Agronomy
Chemistry
Animal Husbandry

Veterinary Science
Dairying

Fourth Year.

Agricultural Physics
Entomology
Farm Management

Chemistry
Bacteriology

Course in Physics.

The aim of the course in Physics is to present the fundamental principles or the subject, laying emphasis on the application of Physics to every day life. Every day phenomena are discussed and made clear in this course

Physical Geography.

This course treats of the earth at its present stage of existence, the changes which are constantly taking place on the surface of the earth and the forces which have caused these conditions and are causing the constant changes.

We plan to offer a Business Course which has for its object the training of the mind and hands along practical lines.

ENGLISH

I. English Grammar and Composition—The work in Grammar consists of a thorough review of inflection, syntax and prosody, and special emphasis is placed upon the analysis of the sentence. Tri-weekly exercises in composition are required and special attention is paid to accuracy. Text, Maxwell's School Grammar.

II. Composition and Rhetoric—In this course the emphasis is put primarily on sentence and paragraph structure and the plan or outline of the composition, and secondarily on style. Written work required at least once a week. Brooks' English Composition, Book I.

III. Composition and English Literature—This course offers a study in English Literature in connection with frequent themes for practice in composition. Long's History of English Literature.

IV. American Literature—This work is an advanced study in American poetry with parallel reading in both prose and poetry; also a study of the history of American Literature. Long's History of American Literature.

V. Teacher's Grammar—A thorough review of English Inflection and analysis, syntax and prosody; a brief survey or the history of the English language and its formation. Maxwell's Grammar.

VI. Public School Literature—This course has for its object the study of literature adapted to all grades of the elementary schools; a study of presentation, correlation and methods of awakening interest. In addition to the work in class, there will be the outside reading of a certain number of books and poems especially suited for children. No special text.

EDUCATION.

I. Elementary Psychology—Discussion and recitations with a view of giving a general and comprehensive idea of mental processes and development.

II. Pedagogy—An outline method will be used in this subject, the purpose of which will be to give the student a thorough understanding of the principles of education from the standpoint of the teacher. Among the topics studied are Principles of Teaching, Processes, Conditions, Devices, Art of Securing Attention.

III. Method—Work in this course prepares students to teach in grades from first to eighth. It includes the study of type lessons,

plan making and the demonstration of methods with classes of pupils in the various grades.

IV. School Management—The purpose of this course is to study the fundamental problems of school work. Among the topics discussed are "The Personality of Teacher," "The Teacher's Preparation," "Organization and Classification," "The Government of the School," etc.

V. Practice Teaching—This course provides for one year of actual teaching under supervision. The thorough preparation of the lesson, and the making of plans for every lesson taught are required.

VI. Child Study—The purpose of this course is to secure for the student knowledge of the development of the child's mind.

VII. Special English. Argumentation—The course embraces the theory of argument and practice in debating and speech writing.

HISTORY.

First Year—

General History, throughout the year.

Outline work and students required to make researches in library on topics. Frequent review and written lessons.

Second Year—

Industrial History (throughout the year.)

Outline course with lectures.

The industrial development of the nation since the 16th century and its place in the industrial world.

A careful survey of Negro History is included to show their struggle and development.

No Text. Current News reports weekly.

Third Year—

English History (throughout the year.)

Cheyney's text to be used.

Outline work with a careful study of English.

Constitutional History and its relation with that of other countries. Students required to do research work in library on

assigned topics, and to have frequent reviews and written lessons.

Current news weekly.

Fourth Year—

Fall Term. Civil Government. Text, Garner's Government in the United States. The course is to be based on lectures, outlines, researches, supplemented by frequent written lessons.

Winter and Spring Terms. United States and Tennessee

History Reviews.

Senior Class—

Same course as that given in the Fourth Year.

HOME ECONOMICS.

There is a growing demand for special teachers and supervisors of Cooking and Sewing in public and private schools, and for house keepers, matrons and home makers. This course is designed to assist in meeting this demand.

COURSE OF STUDY FOR HOME ECONOMICS.

In correlation with the Academic departments of the school, a graded course in Household Science is given, beginning with the sixth grade and extending through the fourth year Normal class. When this course is completed, a special course is given to those who wish to be special teachers in this line of work. This course is three years long and four hours per day are devoted to the instruction. All forms of practical house work is taught, namely the selection, preservation, preparation and serving of foods, utility of left-overs and care of the entire house. Text books are used and the subjects studied definitely are cookery dietetics, marketing, serving, household economics, food product, and manufacture, laundry work and dairying. It is arranged as follows:

First Term—

Theory of Cookery.

Practical Cooking.

Laundry Theory and Practice.

Household Sanitation.
Physiology of Digestion.

Second Year—

Applied Science.

Marketing.

Serving.

Household Management.

Chemistry of Cooking and Cleaning.

Dietetics.

House Wifery.

Third Year—

Bacteriology.

Productions and Manufacture of Foods.

Home Nursing and Invalid Cookery.

Practice Teaching.

In the graded courses, text books are not necessary. Two periods per week are given to each class and the work is arranged as follows:

Sixth, Seventh, and Eighth Grades—

Care and Management of Cooking range.

Household Sanitation.

Care and Construction of sink and trap.

Dish Washing.

Tables of Abbreviations and Measurements.

Classification of Foods and their uses in the body.

Practical Cookery.

Composition, Food Value and Digestibility of potatoes.

Study of Starch with Experiments.

Composition, Food Value and Digestion of Cereals.

Composition, Food Value and Cookery of Fruits, Vegetables,

and Sugar.

First Year—

Batters and Doughs.

Practical Work.

Slow and Quick Processes of Bread Making.

Kinds of Flours.

Baking of Flour Mixtures.

Practical Work.

Baking Powders and their Economical Uses.

Laundry Work.

Second Year—

Laundry Work.

Composition and Food Value of Fish.

Practice Cookery.

Economical Value of Soups.

Cuts of Meat, Composition and Food Value.

Practical Cookery.

Marketing.

Third Year—

Preserving.

Principles of Canning Vegetables and Fruits.

Baking Powder Mixtures Combined with Fresh Fruits.

Practice Cookery.

Plan and Cost of Meals.

Serving.

Fourth Year—

Pastry.

Fancy Cookery.

Salads, Salad Dressings and Sandwiches.

Frozen Desserts.

Candy Making.

Invalid Cookery.

Dietetics.

Serving.

DOMESTIC ART.

The department of Domestic Arts, including plain and fancy sewing, dress-making and handicraft, is designed to give the girls a thorough knowledge of the fundamental principles of the useful arts, and to prepare efficient teachers in these branches of industry.

This department occupies a large, well lighted room on the third floor of the main building, and is well equipped with tables, chairs, six sewing machines, four dress forms and a skirt marker.

A carefully graded course in sewing is given, commencing with the sixth grade and extending through the Fourth Year Normal Class.

After having done the work of the regular course, girls wishing to receive certificates in dress-making may specialize during their Junior and Senior years.

Sewing Fourth, Fifth and Sixth Grades.

Canvas work using worsted thread.

Threading needles and use of thimbles.

1. Stitches taught:—Running, even basting, back, overcast, over-hand catch, outline, blanket, cross and hemming stitches.
2. Button holes, loops, sewing on tapes and bottons.
3. Stocking da. n.
4. Application of these stitches in matching stripes, patching, making pencil case, sewing bags and miniature apron.

Seventh Grade.

Continuation of stitches in more practical form:

1. Basting stitches, even and uneven.
2. Running stitches, gauging and gathering.
3. Overhand stitch.
4. Cutting garments and true bias in petticoat and ruffe.
5. Felling. (a) Flat fell. (b) French fell.
6. Making loops of thread.
7. Sewing on buttons and tape.
8. Blanket stitch.
9. Plackets, Nos. 1, 2, and 3.
10. Gussett.
11. Putting on band.
12. Hem-stitching.
13. Hem-stitching tucks.
14. Darning.
15. Patching.

Eighth Grade.

1. Cutting and basting models of doll under-wear to get practice in cutting and to learn relations of parts of patterns.
2. Cutting and making large under-garments by hand.

3. Applying decorative stitches to finish pieces.
4. Checked gingham apron applying cross stitches. Practice is given in matching checks.

First Year.

This year completes the hand sewing and is devoted to fancy needle work.

I. Drawn work.—

Various designs in Mexican and Spanish drawn work.

II. Embroidery—

French, eyelet, shadow, relief, ouched work, silk embroidery with Kensington stitch, Wallachian, rambler rose embroidery. Roman and Italian cut work and Hardanger embroidery.

III. Crocheting—

Second Year.

1. Cutting, trimming and making on machine a suit of underwear containing five pieces.
2. Decorative stitches applied to finish pieces.

Third Year.

1. Drafting patterns.
2. Foundation principles of dress-making emphasized
3. Cutting, fitting and making a tub dress of gingham, percale, or linen.

Fourth Year.

1. Drafting.
2. Study of materials, trimmings, harmonizing of colors.
3. Cutting, fitting, making and carefully finishing a lined, trimmed woolen dress, applying feather-bones in waist.

Special Course.

This is a two year course for girls having done the graded work given above, and who wish to receive certificates in dress-making.

1. Advanced theory and color study given on draped paper models.
2. Fancy lingerie dresses.
3. Shirred, smocked and beaded dresses.
4. Practice in making by hand and machine elaborate evening dresses.
5. Tailored coat suit.

HANDICRAFT.

Work in raffia, reed, bead work, etc., is given the Junior and Senior girls that they may be able to teach it in primary and elementary schools.

The following course is given

1. Weaving hammocks, rugs and moccasins.
 2. Shuck work, napkin rings, baskets, picture frames and foot mats.
 3. Raffia wrapped articles.
 4. Raffia knotted bags.
 5. Raffia braided hats, belts, etc.
 6. Reed work.
 - (a) Round reed mat using single weaver.
 - (b) Round reed basket using single weaver.
 - (c) Round reed mat using double weaver.
 - (d) Round reed basket using double weaver.
 - (e) Triple weaving done on large baskets.
 - (f) Oblong reed mats.
 - (g) Oblong reed baskets.
 7. Sewed Basketry—Mats and baskets made of raffia and rat-tan using coil, knot, figure 8 and lazy squaw stitches, working in fancy designs with colored raffia.
 8. Bead work—Necklaces, chains, fobs and belts made of beads copying Indian designs.
- Handicraft and primary sewing is taught in model school by Senior girls. Senior girls are required to take courses in hand sewing stitches planned for Fourth, Fifth and Sixth grades.

MUSIC.

Piano lessons and harmony are given at the cost of \$2.00 a month, students being furnished with practice rooms and pianos.

Outline of Course in Vocal Music:

Senior—Chorus work with third and fourth year, Junior and Senior Chorus. Teaching Primary and Intermediate grades. Preparation of Special Program Music.

Junior—Chorus work with Third and Fourth year, Junior and Senior Chorus. Study of text books and other material for primary and intermediate music classes.

Fourth Year—Chorus work with Third and Fourth year, Junior and Senior Chorus. Vocal exercises. Drill in singing all parts of part songs and chorus music.

Third Year—Chorus work with Third and Fourth year, Junior and Senior Chorus. Vocal exercises. Drill in sight singing and few of elementary work.

Special—New students who have not had sufficient music to enable them to do the work as outlined above should join the special class in elements and sight singing.

Second Year—Review of Elements of Music. Exercises in sight singing. Part songs. Eleanor Smith Course, Book IV.

First Year—Review of Elements. Bass Clef begun. Selected voice exercises. Part songs. Eleanor Smith Course, Book IV.

A Preparatory—Review of Elements. Vocal drill. Three part songs. Eleanor Smith Course, Book III.

B Preparatory—Review of Elements. Vocal drill. Eleanor Smith Course, Book III.

Fifth and Sixth Grades—Eleanor Smith, Book II. Element of Music. Singing in two parts.

Third and Fourth Grades—Eleanor Smith, Book I. Selected songs.

First and Second Grades—Rote songs. Elements.

FREE HAND DRAWING.

Drawing. Elementary Courses—Object drawing, blackboard sketching, illustrative stories and primary design. Elementary landscape and etc. Intended for classes below the Second Year Normal.

Advance Course—This includes a knowledge of course No. 1, and embraces the following: model drawing, study of light and shade, still life grouping, illustrating principles of perspective landscape sketching.

Intended for classes above the Second Year Normal. The object has been to place something before the primary and rural teacher an agency which will enable them to present matter to their classes in a more concrete manner.

Mediums used: Charcoal, crayons, pencil and ink, water colors.

MECHANICAL DEPARTMENT.

The School offers courses in the following trades: woodwork, including carpentry, cabinet-making, wood-turning, etc., brick-laying, plastering and painting. Mechanical drawing is given as a part of the training of all the trades students.

The kind of training which this department gives not only fits men to follow directions intelligently and skillfully, but to plan and to lay out work, to estimate materials, to read drawings and build from same and give directions to others; to increase the average standard of skill and intelligence in all of the trades for which it establishes courses.

Every young man, therefore, who is planning to learn a trade, or to take up any kind of mechanical work, or who is dissatisfied with his present rate of progress, is urged to write to A. and I. State Normal School and find if there is not here exactly the kind of help that he needs.

The work in each division is designed to meet the needs of the man who has already done some work in the trades as a workman, but who wants to strengthen and broaden his preparation through systematic instruction and training adapted to his special needs. It is also designed to meet the needs of the man who has no knowledge of the trade processes and who wishes to take the necessary steps to become a skilled workman with capacity for leadership, in the shortest possible time.

COURSE OF INSTRUCTION.

Woodwork.

This course consists of house carpentry, cabinet-making, wood-turning and includes the drawing of plans, etc. The course embraces a variety of bench work, which brings into use all the tools commonly used in the trade. When a certain proficiency is

reached we erect a house either in or outside the Trade Building and each boy has an opportunity to apply what he has learned in house construction. There is also a large number of tables, cabinets, book cases, etc., that have to be made every year which gives employment to the students in cabinet making.

Our shop is equipped with the latest and best machines, such as the planer, band saw, universal rip saw, power grindstone and lathes. This machinery is driven by two electric motors, controlled in such a way as to secure safety.

Bricklaying and Plastering.

Special stress is laid on plain house work, including foundations, chimneys, fireplaces, walls, window and door arches; instruction is given in scaffolding, mixing mortar for both brick and plastering, lathing, use of hair and mortar stains, estimating, drawing and reading blue print drawings, etc.

All brick work on the buildings of the school is done by students in this division. Plastering and repair work, also the concrete work; the building of side walks, etc., are looked after by this division.

Painting Division.

This course includes house painting, hardwood furnishing, interior work, such as frescoing and varnishing. All the staining and varnishing of floors, the painting of farm houses, gates, and all the furniture made in the carpentry or woodworking division are stained and varnished by this division.

Plumbing.

In all professions the world is seeking for proficient men, so it is the purpose of this department to prepare men with a thorough knowledge of the art. The department is equipped with tools for practical work, and there is work to be done at all times in the different buildings that gives students work, which must be done with care and precision.

Mechanical Drawing.

The drawing is arranged with a view to giving the students a general knowledge of working drawings, preparing him to read these intelligently, cultivating his ability to make working drafts,

plans, elevations and selections of tools, buildings, wagons and other work along the line of his trade, and to build according to the same.

Blacksmithing.

Names and Use of Tools.—Special instruction as to the use of the sledge hammer, making a forge fire, common analysis of heat, center punching and drilling, friction, how to draw out iron to a point, how to turn corners, how to make lap links, prove heat at which iron should be worked, horse shoeing, the anatomy of the foot, etc.

Wheelryighting.

This course is intended to fit one to handle the work which is found in the ordinary country or city shop. When the course is completed the student should be able to build a cart, farm wagon, light or heavy delivery wagon, or a plain carriage from beginning to end.

RURAL MANUAL TRAINING.

This course is designed to enable all graduates to meet the common problems of repairing the school house etc., and instructing their students in the use of tools; making useful articles for home use and the repairing in general of the home and the community.

Working drawings for the articles and the execution of the various patterns are carried out in wood with the use of as few tools as possible and on as condensed theory scale as practical.

MATHEMATICS.

I. Arithmetic—A general review of the subject, especially emphasizing fractions and those things bearing directly on practical life. Text, Wentworth Smith's Complete Arithmetic.

II. Elementary Algebra—This class is given the four fundamental operations, factoring, fractions and simple equations. Text, Wentworth Smith's Academic Algebra.

Second Year.

III. Advanced Algebra—The work begun in the first year is here completed, simultaneous equations, graphic solutions, evolution, evolution, theory of exponents, radicals, quadratic equations, inequalities and the binomial theorem. Text, Wentworth Smith's Academic Algebra.

Third Year.

IV. Geometry—Reasoning, not memory is developed, special emphasis being put on exercises and originals. Text, Wentworth Smith's Plane Geometry.

Fourth and Junior Year.

V. Teacher's Arithmetic—This course serves as a review of arithmetic, from the teacher's point of view, discussing methods, forms, etc. Text, Beman and Smith's Higher Arithmetic.

ATHLETICS.

One of the chief aims of the school is to promote the physical development of the student. Students are required to take physical exercise under the supervision of special teachers. Special effort is made not only to train athletic teams for interscholastic contests, but also to provide suitable means for recreation. An athletic association was formed in 1912 and any male student may join by paying a small annual fee, which permits him the use of all athletic material. A similar association is to be inaugurated among the girls which will add greatly toward promoting athletic interest, tennis, center ball, foot ball, base ball, and other games are played by the students. Both the foot-ball and base-ball teams met with great success this past season, winning fourteen out of eighteen contests. Claiming the City Championship in base-ball as well as making an excellent showing against the strongest teams of the South, defeating Atlanta and Clark University by decisive scores.

TEACHER TRAINING.

In this course much time will be given to the theory and practice of teaching. The practice will be in the Model School with just such material as the teacher will have in an ordinary school-room. It will be under the supervision of an experienced, wide awake teacher who will criticise the work of her student teacher and train them into efficiency.

Scope of Work in the Training School.

The Training School Course will prepare teachers for work in grades from the first to the eighth. The educational value of Reading, Arithmetic, Language, Geography, History, Nature Study, Hygiene, Construction Work, Drawing, Spelling, Penmanship, Music and Elementary Science will be considered from the standpoint of instruction.

Type lessons will be presented before the class, problems and method of presentation fully discussed and helpful devices suggested.

Observation of recitations in the Training School will be required throughout the study of methods, also the preparation of type lessons and plans for the teaching or same.

The Practice Teaching will consist of not less than one year of actual teaching under expert supervision. Careful and thorough preparation of all lessons taught, attendance at class work criticism and much collateral reading will be required.

Among the standard books used as texts and reference books will be McMurry's Methods, Sarah Arnold's "Way Marks for Teachers," Public School Methods. The National Practical Reference Library, S. H. Clark's "How to Teach Reading in the Public Schools," and "How to Teach Poetry in the Grades."

 Dr. J. B. Singleton, Nashville.
 Mr. Carris, Asst. State Supt., New Jersey.
 Dr. Thos. E. Carter, Nashville.
 Supt. J. J. Keys, Nashville City Schools,

NOTES.

Visit of County Court.

Though pushed for time, presiding Judge Pollard saw fit to adjourn at noon in order to allow all the members of the Davidson County Court to visit the State Normal School. Automobiles met them as they came down from the court room and conveyed them immediately to the campus where they were met by President Hale, and his corps of teachers, who proceeded to conduct them through various departments of the institution. Having completed their inspection they went to the dining room where they were served an excellent dinner, the foods for same having been grown on our grounds and prepared by students in the Domestic Science Department.

After dinner all assembled in the chapel where with Judge Pollard as Presiding Chairman, a number of speeches were made. All expressed themselves as being more than well pleased with the results shown by the school under the administration of President Hale, and commended highly the teachers who were making efforts to raise their standards. Rotary pictures were made of the entire body after which they departed in their respective automobiles.

Visit of Governor Tom C. Rye.

The Honorable Tom C. Rye having been in office less than six months has seen fit to honor the school with no less than three visits. On each visit he brought company and was kind enough to favor the student body with two talks out of the three visits. He expressed himself as being in sympathy with the teacher and wanted to do all in his power in improving conditions for the teacher. He spoke of the splendid work of the school and commended highly the administration of President Hale, and expressed himself as being willing to back the institution to the full extent of his belief as expressed in his office as Governor of Tennessee.

President's Day.

Amid the busy summer school one could see glimpses of preparations for some big event. The chapel was being decorated, pennants were being made, songs were being sung and speeches being practiced. At the appointed time on July 9, much to the surprise of President Hale he was escorted from his office by Prof. Johnson accompanied by two young ladies from the regular term of school, to the chapel platform, where he soon became aware of the

(60)

situation. It was the first annual public reception to the President. After speeches by different sections of the state, President Hale responded with a speech. At the conclusion he was presented with an elaborate Macey Oak book case and \$10.00 to buy additional sections when his library should demand same.

Resolutions were read and it was voted that this should be an annual affair known as President Hale's Day.

Baptist Publishing House Day.

About 10:30 a. m., Rev. R. H. Boyd, Hon. H. A. Boyd and party began to arrive. A few minutes later the band from the publishing house arrived, a host of employees and friends. All now gathered in chapel where exercises were held. Rev. R. H. Boyd presided over the exercises. The history of the development of the Baptist Publishing House was given, after which many interesting speeches followed bringing out the advancement of the Negro and the relation which the State Normal has to that particular field. Many encouraging remarks were made concerning the well administered school under the capable direction of President Hale. President Hale responded to a request and spoke a few words. He spoke highly of the Baptist Publishing House concern, its management, its scope, its possibilities and etc. He invited Rev. R. H. Boyd to make it an annual affair, stating that we were always pleased to serve the public in any possible way. After serving refreshments all adjourned.

Visit of Tennessee Legislature.

Promptly at 12:30 p. m., the entire body adjourned and started for the State Normal in automobiles donated by the colored and white citizens of Nashville. One o'clock found the first automobile unloading its distinguished load of legislators on the beautiful campus, where they were met by members of the faculty who promptly conducted them on a regular route as follows: Boy's Dormitory, Mechanical Building (Brick Masonry, Carpentry, Blacksmithing), Laundry Department, Farm, Women's Dormitory, Main Building (Educational Rural Manual Training, Cooking and Canning Exhibits, Laundry Display and Scientific Farming Demonstration), and then to the Main hall where after an exchange of greeting all went down to an elaborate dinner which had been prepared by the students of the Domestic Science Department. All vegetables and the barbecued pig were products of our farm grown by students and finally served on tables made in the Mechanical Department of the school.

On leaving dinner the entire body assembled in the chapel where appropriate exercises were held. Senator Cummings of Chattanooga presiding as Chairman of the occasion called upon several members of the Senate and House to speak. They spoke highly of the work of the School, the ability of the President and the earnestness of the teachers who were here making sacrifices to improve their conditions. The exercises were interspersed with songs by the school.

At the conclusion of the exercises the entire body went to the front of the main building where a rotary picture was made, after which all adjourned to their homes.

Resolutions for President's Day.

Whereas, the law making body of the great State of Tennessee saw fit to found the A. and I. State Normal School, which is a God sent blessing to the Colored race of the State and an honor to this Southland.

Whereas, this great Institution founded as it is in the very heart of Tennessee and especially in the City of Nashville, better known as the Athens of the South, making it available and accessible to all the pupils and teachers of our great State, and this great school has leaped forth into full blast almost instantaneously and is accomplishing untold good by sending well prepared men and women to all parts of the State. And

Whereas, the work is going forward so smoothly, being presided over by that far-sighted, cool-headed, big-hearted, princely leader, that wide awake hustling teacher, President Hale. Therefore be it

Resolved, That we, the 900 teachers of the State here assembled, do most heartily appreciate and highly endorse the exercises just concluded.

Resolved further that the first Thursday after the Fourth of July each year be known as "President Hale's Day" with exercises similar to that of to-day.

Respectfully submitted,

(Signed:)

M. L. MORRISON.

DIRECTORY OF ORGANIZATIONS.

Young Women's Senior Literary Club—Officers: President, Rebecca Davis; Secretary, Marjorie Murray; Critic, Emma Chairs; Marshal, _____; Pianist, _____; Vice-President, _____.

Young Women's Junior Literary Club—Officers: President, Lillian Jones; Vice-President, Ella Kay; Secretary, M. Carraway; Critic, Lelia Hill; A. Mc Millan; Chaplain, L. Howard; Pianist.

Young Men's Senior Literary Club—Officers: President, David Anderson; Vice-President, Wm. Dixon; Secretary, Excell Collier; Treasurer, Henry Maxwell; Critic, Carol Hayes; Chaplain, Goldie Morgan; Marshal, Fred Robinson.

Y. M. C. A.—Officers: President, Robert L. Smith; Vice-President, G. W. Senter; Secretary, Ulysses G. Lindsay; Treasurer, McKinley Downs.

Y. W. C. A.—Officers: President, Ambrosia Eberhardt; Vice-President, Isabelle Maudlin; Secretary, Lillian Jones; Treasurer, Beatrice Davis.

Sunday School—Officers: Superintendent, Katheline D. Smith; Asst. Supt., F. B. Wilson; Secretary, Lillian Jones; Asst. Secretary, S. Greer; Treasurer, Thomas Shannon; Pianist, Vivian Clay; Librarian, George Brown; Asst. Librarian.

Young People's Branch of the Women's Christian Temperance Union—President, _____; Vice-President, _____.

Y. M. C. A and Y. W. C. A.

The Young Men's and Young Women's Christian Associations are world wide in their scope. Their members come in personal touch with representatives from various parts of the world. The aim is to train and improve the head, the heart and the hand of the youth. Their influence can only be measured by the individual influence of its strong manly men and women all over the world.

On May the 20th, the President of the Y. M. C. A. left for King's Mountain to attend the Student's Conference of the Y. M. C. A., which was being held for the purpose of having delegates from all the Negro schools of the country discuss the problems of the Y. M. C. A. There he received valuable information and helpful inspiration for the coming year's work. The decision of the delegates is to make the coming year the most interesting and helpful to the students in the history of the school.

A very cordial invitation is extended to all young men and young women to join these associations and help others to become stronger and better.

PROGRAM FOR COMMENCEMENT EXERCISES.

Sunday, May 30, 1915, 3:30 p. m.

Monday, May 31, 4:30 p. m.

- Class History.....Lyman Jones
 Class Prophecy.....Mabel Hemphill
 Tree Oration.....Ulysses Lindsay
 Planting of the Maple Tree.....Kate Gresham
 Class Song: (*Composed by Frances E. Thompson*).....Class

SENIOR NORMAL DEPARTMENT.

Senior Class Day.

Original Play, May 31 at 3:00 p. m.—"The Vision of the Graduate."—(By Senior Class.)

CLASS SONG.

When the golden sun is melting,
 In the purple of the night,
 There is promise of the morrow
 That it will be pure and bright.
 So to-day we see the gleaming,
 Through regret that we must part,
 Of the beauty of the future,
 In the hopes that fill each heart.

When our hearts are full of sorrow,
 And our souls full of despair,
 We remember that good fortune
 Follows in the path of care.
 Though to-day we feel the torture,
 From each other we must part,
 We will never break the "Class Love"
 That each carries in his heart.

Three long years we've toiled together,
 On old Normal's Campus green,
 "As The Labor So The Reward"
 Has ever our motto been.
 In this wide, wide world of troubles,
 For the heights of fame we'll strive,
 Back at our "Dear Alma Mater,"
 Our kind thoughts will always live.
Wilkins—Class poet, '15.

PROGRAM MUSIC DEPARTMENT.

Monday, May 31, 1915, 2:00 o'clock p. m.

- Invocation.

Winchester, Edward.....	Nashville, Tenn.

SUMMER SESSION, 1915.

The fourth annual session of the Summer School opened June 15th with an enrollment of more than 600 teachers from nearly every county in the state. During the session that continued for a period of five weeks, the attendance increased rapidly until the total enrollment reached 910. This is the largest summer school ever held for Negroes in the world.

The work of the session was conducted by President W. J. Hale, who was assisted by his regular faculty and the following special teachers:

Miss Clara Brown, Langston University, Handicraft.

Prim. M. L. Morrison, Dyersburg High School, Tennessee History.
Pres. J. W. Johnson, Ex-President of Roger Williams University, Mathematics.

Miss Ethel Jordan, City Schools, Millinery.

Dr. T. A. Rhue, Chattanooga, Lincoln High School, Manual Training,

Mr. Calvin McKissack, Oklahoma Normal and Industrial Institute Pres.,

Manual Training.

Mrs. L. M. Sneed, Louisville, Ky., Education and Prim., Methods.

Prof. T. W. Talley, Fisk University, Science.

Dr. G. E. Haynes, Fisk University, Sociology.

Mrs. L. H. McAdams, Shelbyville, Matron.

Miss Lucile H. Annis, Louisville Public School, Painting and Drawing.

Mrs. Southall, Nashville, Painting and China Work.

The nine hundred teachers expressed themselves as having received many new ideas in Methods and excellent preparation for more efficient service to the people of the State (the aim of establishment of the school), much to the satisfaction of the State Supt. Sherrill as expressed by him to the teachers. Besides the literary courses offered, excellent courses were given in Manual Training, Domestic Art, Domestic Science, Canning, Rural Gardening, Corn and Tomato Club Work, Rural Manual Training, Nature Study and Agriculture. These courses were very popular and it became very difficult to accommodate classes of 150 and 200. The desire of the teachers to learn and to increase their efficiency was very evident even though crowded to full capacity. This desire was noted and commented upon by Members of the Legislature, County Court, Governor Rye and State Superintendent S. W. Sherrill.

An excellent course of lectures was arranged as follows:

Prof. T. W. Talley. A course of five weeks on Reading Circle work and

Science.

Dr. George E. Haynes. A course of two weeks on Sociology.

Dr. L. B. Moore. Lectures on Educational subjects.

Dr. C. V. Roman. Lectures on popular subjects.

Rev. N. D. Shamboyrner. Lectures on miscellaneous subjects.

Miss Christine Finling, Temperance lecturer for State of Tennessee.

There were a number of other lectures coming in from time to time, among whom were Mr. S. L. Smith, Rural Supervisor; Joanna P. Moore, Fireside School; Dr. C. V. Roman, Nashville; Rev. R. H. Boyd, Baptist Pub. House; State Librarian, Pearl Kelley; and others.

Many delightful excursions and entertainments were planned for the visiting teachers. Special trips were made to the Penitentiary, Methodist and Baptist Publishing Houses, Hermitage, Greenwood Park. Special entertainments were rendered by the summer teachers under the direction of Miss A. Crogman, Miss M. B. Morgan and Prof. N. W. Ryder. President W. J. Hale tendered the teachers a complimentary boat excursion up the river through the locks.

THE STATE TEACHERS' ASSOCIATION AND RURAL IMPROVEMENT LEAGUE.

The second year of the Improvement Association found the Association well on its way toward its object, namely, the general improvement and uplift of the colored farmer. This year closes a successful year of organizing Corn, Tomato and Mother's Clubs, as well as planned demonstrations on rotation of crops, proper cultivation and fertilization of land and crops, sanitation and home hygiene, and other vital subjects. The State Rural Improvement Herald published by Prof. J. R. Inman, of Lebanon is taking an important part in carrying out the policy of the State Normal Improvement Association. The following officers were elected and committees appointed to foster and keep alive this organization in every section of the State.

PRESIDENT W. J. HALE, State President; A. and I. State Normal School, Nashville.

PROF. W. D. EDINGTON, Vice-President, East Tennessee.

PROF. J. R. INMAN, Vice-President, Middle Tennessee.

PROF. M. L. MORRISON, Vice-President, West Tennessee.

MISS HELEN M. SMITH, Secretary, Memphis, Tennessee.

MISS E. BRAMLETT, Treasurer, Pulaski, Tennessee.

PROF. A. C. BURNETT, Corresponding Secy., A. and I. State Normal, Nashville.

PROF. J. L. WHITE, Asst. Corresponding Secy., A. and I. State Normal, Nashville.

PRESIDENTS OF COUNTY ORGANIZATIONS THUS FAR ORGANIZED.

<i>County.</i>	<i>President</i>	<i>Address.</i>
