Calendar: 1916
General Information
WHAT THE SUMMER SCHOOL OFFERS.

The Summer School offers practically all courses required in preparation for any teachers' certificate or for any extension of certificates that may be granted by the State Board of Education. Credits are given for the satisfactory completion of all courses, and attendance upon the Summer School gives teachers of Tennessee all privileges accorded by the State Superintendent of Public Instruction with regard to renewals of certificates that may be accorded by the State Board. Teachers attending the Summer School are also accorded exemptions from Institute attendance and Reading-circle examinations.

12. Teachers who wish subjects credited on teachers' certificates.
13. Students interested in training for social service.
Letters From State Officials and Other Visitors

From State's Warden:

Special Techniques

Special Techniques include the Interactive Classroom and the Virtual Classroom. The Interactive Classroom is a virtual environment where students can engage in interactive learning experiences. The Virtual Classroom is a platform that allows for remote teaching and learning.

REGISTRATIONS

Students must register for each class and provide their schedules for the week.

VENDORS

Vendors are responsible for providing supplies and equipment for the classroom.

EXHIBITIONS

Exhibitions are scheduled for the end of the term and are open to the public.
**Summary of Research Findings and Implications**

The study investigated the relationship between social media usage and mental health among teenagers. The findings revealed a significant correlation between increased social media usage and higher levels of anxiety and depression. The implications of these findings suggest that interventions focusing on limiting social media use and promoting mental health education could be beneficial.

**From Country Surveys**

Survey results from various countries showed consistent patterns where increased social media usage was linked to increased instances of mental health issues among teenagers. These findings call for a global approach to address the mental health concerns related to social media.
