The School of Nursing seeks to provide a reasonably safe environment for nursing students and their patients. A student may be required, during the course of the program, to demonstrate physical and/or emotional fitness to meet the essential requirements of our program. Such requirements may include, but not limited to, freedom from communicable disease, the ability to perform certain physical tasks and suitable emotional fitness.

Any appraisal measures used to determine such physical and/or emotional fitness will be in compliance with Section 504 of the Rehabilitation Act of 1973 and the American with Disabilities Act of 1990, so as not to discriminate against any individual on the basis of handicap.

**Criminal background checks and drug screens may be a requirement for placement at some affiliated clinical sites. Based on the results of these checks and screenings, an affiliated clinical site may determine to not allow your presence at their facility. This could result in your inability to successfully complete the requirements of the nursing program. Additionally, a criminal background may preclude licensure or employment.**
