

CONGRATULATIONS TO RECENT MILLION DOLLAR RESEARCH CLUB MEMBERS

CELEBRATING RESEARCHERS AWARDED \$1,000,000 OR MORE PER GRANT

Congratulations to four faculty members for their 2014 induction into the Research and Sponsored Programs' Million Dollar Research Club! Drs. Elaine Martin, Jeanetta Jackson, Heraldo Richards, and Artenzia Young-Seigler join the 31 existing members of this exclusive club of scholars who, due to their commitment to excellence, are on the cutting edge in research, teaching, and service. The steady increase in sponsored research and program support is a direct result of the million dollar projects awarded to these 35 distinguished scientists, engineers, and educators. Their efforts, although measurable in dollars, are immeasurable in terms of the positive impact their work has had on the University's ability to achieve its mission.

These recent club members lead the National Science Foundation grant awarded to Tennessee State University for support of "Project Tiger Teach (PTT)."

Elaine Martin, Ph.D.
 Principal Investigator

Elaine Martin, Ph.D.

Associate Professor, Department of Biology, College of Agriculture, Human, and Natural Sciences, Tennessee State University

Dr. Martin was chosen as Tennessee State University 2011 “Teacher of the Year.” She serves as the coordinator of the general biology courses for majors and is responsible for the corresponding curricula review and assessment. Dr. Martin also coordinates the biology teacher certification program and supervises internships for pre-service biology and chemistry teachers. She is a trained academic auditor and was team leader for the Department’s 2010 Academic Audit.

Jeanetta Jackson, Ed.D.

Professor, Department of Mathematical Sciences, College of Engineering, Tennessee State University

Dr. Jackson coordinates the undergraduate mathematics program in which her duties entail a variety of activities: revising the undergraduate math curriculum, mentor for new faculty, assessment coordinator, advisor for math and math education majors, student teaching supervisor (math), and recruiter. Dr. Jackson served as the NSF HBCU-U STEM Summer Institute Activity Director. Currently, she is the university math consultant for the TSU SITES-M Grant.

Heraldo Richards, Ph.D.

Associate Dean and Associate Professor (Department of Teaching and Learning), College of Education, Tennessee State University

Dr. Richards oversees the operations of the Teacher Education Program in the College, and directs the Ready2Teach initiative at TSU. He has published and presented on topics related to diversity in education, focusing on equity for individuals with disabilities, and the utilization of technology to enhance learning among students from diverse backgrounds.

Artenzia Young-Seigler, Ph.D.

Assistant Professor, Department of Biological Sciences, College of Agriculture, Human, and Natural Sciences, Tennessee State University

Dr. Young-Seigler serves as coordinator of the undergraduate non-majors biology courses, Introduction to Biology I and II, and is responsible for the design and implementation of the course curriculum. As Digital Faculty Consultant with McGraw-Hill Publishers, she trains faculty around the country in implementing content delivery within the classroom via diverse pedagogical techniques.
