Learn instructional design strategies for teaching a capstone course

Designing and Teaching a High-Impact Capstone Course

They spend four years taking the courses they need to earn a degree. However, are your students ready to put into action what they learned?

Audio Online Seminar • Thursday, February 28, 2013 • 1:00 pm Central
Avon Williams Campus Training Room 2

Capstone courses are a powerful tool to ensure that students synthesize all the disparate materials they’ve studied so that they can launch into new endeavors and tackle complex problems in graduate school, their careers and life. A new online seminar, Designing and Teaching a High-Impact Capstone Course, will walk you through a six-step process so that your capstone courses offer your students an invaluable integrative experience right before graduation.

This seminar will be led by Barbara Jacoby, PhD. Dr. Jacoby teaches a high-impact capstone course at the University of Maryland, College Park and, as capstone courses have become increasingly popular at all types of colleges and universities, she has advised faculty around the country about how to develop a capstone course to meet their students’ needs.

Learning Objectives

Help your students make the most of everything they have learned in and out of the classroom by participating in Designing and Teaching a High-Impact Capstone Course, a 60-minute Magna Online Seminar.

You will learn how to:

- Identify and articulate desired learning outcomes for a capstone course
- Select a course model to enable students to achieve learning outcomes
- Develop guidelines for student projects
- Design opportunities and engage students in critical reflection
- Determine assessment strategies and criteria
- Showcase student achievements
- Tackle administrative and financial issues related to implementing capstone courses

In addition, you will receive questions for further discussion and self-assessment, blank versions of worksheets, and other materials to help sustain the seminar’s value as you forge ahead with your own capstone courses.
