

Benefit of the Supply Chain Management Student Organization

University and Students

We strive to enrich student's experience, encourage greater student engagement and development by providing intellectual, social, networking and professional activities to facilitate the successful transition from institutional academia to a professional environment. SCMSO is established to increase students' value through the school excellent academic program to create high expectations for academic success.

Outcome

- Involvement in opportunity to experience campus and organizations activities.
- Variety of out of classroom learning, recreational and social opportunities.
- Numerous internship and job placement opportunities.
- Professional Mentoring including resume' critiques and mock interviews

To join, please contact: Ms. Tiffanie Harris, SCM Program Coordinator at: tharri23@tnstate.edu
