The mission of the Tennessee State University Career Development Center is to prepare students for life after college. We endeavor to meet our mission by assisting our students and alumni to make optimal use of their knowledge, skills and abilities. One of the best ways for you to gain valuable work experience by is by participating in professional internships. Employers hiring new graduates want to see work experience in your career field on your resume-- and internships are the way to obtain that experience.

With that in mind, we have compiled a list of competitive, professional internships by major that we encourage you to research and apply for. As with all internships and jobs, the Career Development Center strongly encourages you to have your resume critiqued by a Career Counselor to ensure that you are putting your best professional foot forward. Take note, the Various Majors section list employers who seek students from various majors so be sure you thoroughly review these listings.

National Association for Equal Opportunity in Higher Education

For over a decade, the National Association for Equal Opportunity in Higher Education (NAFEO) has facilitated internship assignments in government and industry for students enrolled in historically and predominantly black colleges and universities and has brought the interns together for a range of extra-learning and enrichment opportunities throughout the course of their internship to enhance the internship experiences. Through internship assignments, students are provided "hands-on" opportunities to apply their classroom knowledge in challenging work experiences and their employers receive the benefit of the new ideas, new energy, expertise and experiences of diverse student learners.
