

**COMPUTER SCIENCE ACADEMIC MAP: DEGREE BS (120 CREDIT HOURS)**

This degree map is a semester---by---semester sample course schedule for students majoring in **Computer Science**. The milestones listed to the right of each semester are designed to keep a student on track to graduate in four years. The schedule serves as a general guideline to help build a full schedule each semester. Milestones are courses and special requirements necessary for timely progress to complete a major. When one or more milestones are missed, students should consult with an academic advisor to determine if another degree path would be more suitable.

The Computer Science Department resides in the College of Engineering. A student majoring in the area of Computer Science is exposed to a broad---base of knowledge in various contemporary computer science fields such as computer architecture and organization, algorithm design and analysis, computer programming, database management systems, and computer networks and data communications. Computer Science, like other degree programs in the College, requires students to have academic preparation in mathematics and the natural sciences; it also relies heavily on the areas of communications and ethics.

Students in the discipline are expected to maintain a minimum cumulative Grade Point Average (GPA) of 2.00. Computer Science majors earning a grade of "D" or lower in a COMP course or MATH 1910 should repeat the course the very next time the course is offered. A student, however, may graduate with a maximum of two "D" grades in these courses. Additionally, the University requires a minimum of "C" grade in ENGL 1010 and ENGL 1020. Students can enroll in COMP 4500, Senior Project I, only if they are eligible for graduation in the following semester. For more information concerning policies and practices in the Department of Computer Science, please refer to the department's website ([www.tnstate.edu/cs](http://www.tnstate.edu/cs)).

Tennessee State University recognizes that students have diverse learning, life, and professional experiences. The University provides opportunities for students to earn college credit toward the degree through a number of assessment options that evaluate their learning experiences. These paths are grouped under the category "Prior Learning Assessment" (PLA). Various means of earning PLA credit at TSU are the following: Advanced Placement Program, American Council of Education (ACE) Military Credit, College Level Exam Program (CLEP), DSST Credit by Examination Program (includes DANTES Examination), Institutional Course Challenge Exams (Departmental Exams), International Baccalaureate Credit, Other Military Service, Portfolio Assessment. To learn more about PLA contact your academic advisor or the Office of Student Support Services for Adult and Distance Learners at (615) 963---7001 or [adultstudentsupport@tnstate.edu](mailto:adultstudentsupport@tnstate.edu).
