

Course Name	Faculty Qualifications Needed	Related Disciplines	Acceptable Alternative Qualifications
DHYG 2010 Basic Nutrition	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1010 Dental Hygiene Theory I	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1014 Pre-Clinical Dental Hygiene Laboratory	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1020 Dental Hygiene Theory II	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1024 Clinical Dental Hygiene I	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1030 Radiology	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1040 Dental Materials	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.

DHYG 1050 Periodontics	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1110 Orofacial Anatomy	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1110 Tooth Morphology	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1134 Clinical Dental Hygiene II	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1140 Head and Neck Anatomy	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2010 Dental Hygiene Theory III	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2014 Clinical Dental Hygiene III	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.

DHYG 2020 Dental Hygiene Theory IV	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2024 Clinical Dental Hygiene IV	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2050 Periodontics	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2100 General and Oral Pathology	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2110 Community Dental Health	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2150 Dental Health Education	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 2300 Dental Hygiene Topics Abroad	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.

DHYG 3010 Curriculum Concepts in Dental Hygiene and Allied Health Education	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4020 Dental Hygiene Externship	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4120 Teaching Practicum	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 1200 Anxiety and Pain Control	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4210 Dental Hygiene Research	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4340 Global Oral Health	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4420 Interprofessional Evidenced-Based Practice	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.

DHYG 4999 Independent Study in Dental Hygiene	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4350 DHYG 4350 Educational Concepts for the Health Professional	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4430 Alternative Dental Hygiene Practice	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
DHYG 4200 DHYG 4200 Professional Development for the Registered Dental Hygienist	Earned Masters and/or Doctorate degree in Dental Hygiene/Dentistry in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Periodontics, Orthodontics, Endodontics, Prosthodontics	Acceptable alternative qualifications must include relevant professional licensure/certifications in dental hygiene, substantial professional experience (e.g., publications, awards) in dental hygiene, and notable scholarly work such as published articles or conference presentations in dental hygiene related fields.
