

Course Name	Faculty Qualifications Needed	Related Disciplines	Acceptable Alternative Qualifications
EDAD 5020 Philosophy and Introduction to School Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Education, Educational Policy, Organization and Leadership, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or philosophy of education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5030 Instructional Leadership	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Education, Organization and Leadership, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5040 The Adult Learner	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Adult Education, Educational Psychology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or adult education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5050 Educational Law	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Law, Educational Policy	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or juris doctor, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5070 Stress Management For Administrators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Psychology, Administration, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5080 Action Research for Educators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research, Education, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational research, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5090 Assessment for Leaders	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Measurement, Evaluation and Statistics, Administration and Supervision	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational measurement, evaluation and statistics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5110 Educational Research For The Practitioner	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research, Evaluation and Measurement, Curriculum and Instruction, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational research, evaluation and measurement, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 5180 Principles and Techniques for Teaching Adults	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Adult Education, Higher Education, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or adult education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5200 Human Resource Management	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Human Resource, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher Educational Administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5350 Parental Involvement Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Education, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5390 Community Resources	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Education, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5420 Community Organization	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Education, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5490 Aspects of Aging	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Adult Education, Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or adult education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5515 Administrative Internship-I	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5516 Administrative Internship-II	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 5517 Administrative Internship-III	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5640 School and Community Relations	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Education, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5720 School Finance	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Finance, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 5910, 5920, 5930 Problems and Projects in Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Curriculum and Instruction, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6000 Statistical Analysis in Educational Leadership I	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research and Evaluation, Statistics	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational research and evaluation, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6010 Theory and Principles of Educational Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6040 Leadership and Interpersonal Relations for Administrators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6040 Leadership and Interpersonal Relations for Administrators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 6050 Professional Negotiations in Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or peace and conflict studies, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6060 The Administration of Instructional Programs and Materials	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Curriculum and Instruction, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6070 Legal Problems	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Law, Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or juris doctor, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6080 Internship in Administration/Supervision	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6090 Planning for Educational Facilities	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6100 Curriculum Planning and Programming	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6110 Human Resource Management and Development	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Law, Educational Administration, Educational Policy, Organizational Leadership, Human Resources	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6120 Assessment for Professional Licensure	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership, Human Resources	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 6140 Culminating Project for Ed.S.	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6150 Ethics for School Administrators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership, Ethics	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6160 School Principalship	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6170 Organization and Administration of Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Higher Education, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6200 Organization and Administration of the Secondary School	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6250 International Global Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	International and Comparative Education, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or international and comparative education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6280 Financial Management and Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Educational Administration, Public Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher Educational Administration., relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6300 Communication for School Executives	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Communications, Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or communication studies, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 6515 Administrative Internship I	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6516 Administrative Internship-III	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6517 Administrative Internship III	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6580 Action Research for Educators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research, Education, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 6910/7910 Independent Research in Leadership	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research, Education, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7000 Interdepartmental Doctoral Seminar	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research, Education, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7010 Theory and Principles of Educational Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7020 Policy Implementation in Educational Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Human Resource	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 7030 Qualitative-Naturalistic and Survey Research Methods	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research and Evaluation, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational research and evaluation, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7040 Leadership and Interpersonal Relations for Administrators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Organizational Leadership,	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7050 Professional Negotiations in Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Policy, Law, Educational Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or peace and conflict studies, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7060 The Administration of Instructional Programs and Materials	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7070 Planning for Educational Change	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Research	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7090 Seminar in Educational Administration and Supervision	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7100 Current Issues in Educational Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7110 School District Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 7120 Advanced Methods of Research	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research, Statistics, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational research, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7130/6130 The Community Junior College	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education, Educational Administration, Educational Policy	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7150 Advanced Legal Problems	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Law, Educational Administration, Educational Policy, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or juris doctor, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7180 Statistical Analysis in Educational Leadership II	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Research, Statistics, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational research, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7200 Human Resource Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Organizational Leadership, Human Resource	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7280 Financial Management and Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Educational Administration, Educational Policy, Public Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher Educational Administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7300 Communication for School Executives	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Communications, Educational Administration,	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or communication studies, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7350 Decision Making for Administrators	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Organizational Leadership, Public Administration, Decision Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or organizational leadership, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7380 Teaching Adult Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Adult Education, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or adult education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 7400 Foundations of Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education, Educational Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7410 Diversity and Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education, Educational Policy	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or sociology of education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7420 Curriculum, Students, and Faculty in Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education, Curriculum and Instruction, Educational Policy	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7430 Seminar in Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7440 Practicum in Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education,	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7441 Practicum in Higher Education II	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7442 Practicum in Higher Education III	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7450 Economics and Finance of Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Economics, Finance, Higher Education, Educational Administration, Organizational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or economics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7460 Government, Public Policy, and Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education, Educational Policy, Educational Law	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or public administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.

EDAD 7470 Contemporary Topics in Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or higher education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 7499 Marketing in Higher Education	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Higher Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or marketing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 8100 Doctoral Dissertation	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Organizational Leadership, Educational Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDAD 8110 Readings and Research in Educational Administration	Earned Doctorate degree in Educational Leadership in the teaching discipline or a closely related discipline.	Organizational Leadership, Educational Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in educational leadership or educational administration, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in educational leadership related fields.
EDCI 5000 Foundations of Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning Educational Studies	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5010 Issues in Bilingual Education and Second Language Acquisition	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Applied Linguistics, Language and Literacy Education, TOSL, Teaching and Learning Educational Studies	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or bilingual education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5020 Strategies, Planning & Curriculum Design for ELL	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning Instructional Design	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5030 Teaching and Assessment of ELLs	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Assessment	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5040 Content Area Instruction for ELLs	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	English Education, Applied Linguistics, Curriculum and Instruction, TOSL, Administrative and Supervision, Research and Evaluation	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDCI 5050 Classroom Practice in Adult ESL	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	English Education, Applied Linguistics, Curriculum and Instruction, TOSL, Adult Education, Administrative and Supervision, Research and Evaluation	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5110 Research and Statistics in Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Research and Evaluation, Statistics, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational research and evaluation, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5190 Technology Integration in the Instructional Setting	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5260 Philosophy of Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Leadership	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or philosophy of education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5270 Advanced Social Studies	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Social Studies Education, Curriculum and Instruction, Geography, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or social studies education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5280/6280 Designing Middle School Curriculum	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Instructional Design, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5290 Advanced Language Arts	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5300 Multicultural Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Leadership, Curriculum and Instruction, Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or multicultural education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5310 In-Service Education Workshops	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDCI 5315 Observation	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5340 Evaluation of Education Programs	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5350 Internship in Secondary School	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Secondary Education, Teacher Education, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or secondary education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5360 Internship in Elementary School	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teacher Education, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5610 Alternate License Seminar I	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teacher Education, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5620 Alternate License Seminar II	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teacher Education, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5630 Alternate License Seminar III	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teacher Education, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5715 Advanced Methods of Teaching For Secondary Teachers	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Secondary Education, Teacher Education, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5720 Introduction to Education Technology	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDCI 5721 Visual Literacy and Digital Instruction	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Curriculum and Instruction, Instructional Technology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5722 Rhythm, Rhetoric, and Creative Engagement	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Multicultural Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5723 Instructional Engagement through Media Arts	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Media/Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5724 Visual Expression and Content Design	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5730 Audiovisual Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Technology, Media/Instructional Technology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5740 Instructional Technology	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5750 Instructional System Design	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5760 Emerging Technology	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5770 Distance Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction, Distance Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDCI 5820 Advanced Mathematics in The Elementary School	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Mathematics Education, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or mathematics education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5820 Advanced Mathematics in the Elementary School	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Mathematics Education, STEM Education, Mathematics	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or mathematics education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5830 Advanced Science in The Elementary School	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Science Education, Curriculum and Instruction, STEM Education, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or science education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5840 Classroom Management: Creating A Community of Learners	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Psychology, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5860 Values Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Psychology, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or philosophy of education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5910 Problems and Projects in Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5920 Problems and Projects in Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5930 Problems and Projects in Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 5950 Seminar in Multicultural Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or multicultural education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDCI 6100 Curriculum Planning and Programming	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 6130 Seminar in Curriculum Design	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 6150 Seminar in Curriculum Development	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 6180 Microcomputer Technology in Primary and Elementary Schools	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 6190 Microcomputers and Educational Services	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 6300 Multicultural Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Multicultural Education, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or multicultural education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 6340 Evaluation of Education Programs	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Research and Evaluation, Measurement and Evaluation, Educational Psychology, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational research and evaluation, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 6860 Values Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Research and Evaluation, Measurement and Evaluation, Educational Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational research and evaluation, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7000 Foundations of Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Sociology of Education, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDCI 7000 Foundations of Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning Educational Studies	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7020 Introduction to Doctoral Scholarship	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7030 Independent Study	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7080 Curriculum Theory	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7110 Seminar in Instruction	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7120 Advanced Methods of Research	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational research and evaluation, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7130 Evaluation of Education Programs	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Research and Evaluation, Educational Psychology, Measurement and Evaluation, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational research and evaluation, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7140 Principles of Teaching	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7190 Applied Technology in Research Development	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Instructional Technology, Educational Technology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or instructional technology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDCI 7300 Diversity in Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Psychology, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or multicultural education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7340 Curriculum Development & Design	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Instructional Technology, Educational Technology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7450 Learning Theories for Teachers	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Psychology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7740 Advanced Qualitative Research Methods	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Educational Leadership, Research and Evaluation	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 7870 The Elementary and Secondary Curriculum	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDCI 8100 Doctoral Dissertation	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 5020 Strategies, Planning & Curriculum Design For English Language Learners	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	English Education, Applied Linguistics, Curriculum and Instruction, TOSL, Administrative and Supervision, Research and Evaluation	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or english education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 5310 In-Service Education Workshops	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Educational Studies, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 5590 Foundations of Teaching Reading	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDLI 5610 Methods For Literacy and Instruction (K-5)	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 5640 Diagnosis and Treatment of Reading Disabilities	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Special Education, Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 5690 Practicum in Reading Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 5800 Linguistic Applications to Teaching Language Arts	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 5870 Interpreting Research Findings into Classroom Practice	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or curriculum and instruction, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 6030 Reading and Writing Across the Curriculum	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 6050 Strategies for Developing Reading/Study Skills in Middle and Secondary Schools	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 6120 Current Trends and Issues in Reading - Language Arts Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 6200 Directed Individual Study of Instructional Strategies in Reading	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDLI 6210 Directed Individual Study in Supervising Reading Instruction and/or Programs.	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 6220 Directed Individual Study of Individualized Clinical Procedures	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Clinical Psychology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or clinical psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 6500 Investigating Reading and Writing Process	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 7020 Providing In-Service for Teachers of Reading and Other Language Arts	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 7100 Internship in Supervision of Reading Instruction and/or Programs	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDLI 7200 Internship in Reading Clinic	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Language and Literacy Education, Applied Linguistics, Curriculum and Instruction, Teaching and Learning Reading Specialist	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or language and literacy education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5100 Multicultural/Bilingual Exceptional Student: An Introduction to the Field of Multicultural/Bilingual Special Education	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, TOSL, Teaching and Learning Special Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or multicultural education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5370/6370 Characteristics and Strategies for the Physically Challenged	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning Special Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5520/6520 Organization and Administration of Programs and Services for the Disabled	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning Special Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDSE 5530 Education and Psychology of Exceptional Children	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Educational Psychology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5540/6540 Theory and Procedures for Teaching the Exceptional Child	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Educational Psychology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5550 Characteristics of Young Exceptional Children	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Educational Psychology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5560 Psycho-Educational Diagnosis of the Exceptional Child	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Educational Psychology, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or clinical psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5570 Consultation and Collaboration	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or educational psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5580 Learning and Behavior Disabilities	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Educational Psychology, Curriculum and Instruction, Teaching and Learning Behavioral Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5590/6590 Characteristics and Needs of the Gifted	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5600/6600 Teaching the Gifted	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Curriculum and Instruction, Teaching and Learning	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5630/6630 Teaching Early Childhood Special Education	Earned Doctorate degree in Early Childhood Education in the teaching discipline or a closely related discipline.	Education, Special Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.

EDSE 5640 Managing Inappropriate Classroom Behavior	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Educational Psychology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5680 Instructional Intervention for Students with Mild Disabilities	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.	Special Education, Educational Psychology, Curriculum and Instruction	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Education or special education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Education related fields.
EDSE 5690 Managing Transitions for Exceptional Persons	Earned Doctorate degree in Education in the teaching discipline or a closely related discipline.
