

Course Name	Faculty Qualifications Needed	Related Disciplines	Acceptable Alternative Qualifications
HPSS 5002 Seminar in Advanced Readings and Interpreting Research	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Research Methods	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in sport science or exercise science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in sport science related fields.
HPSS 5004 Psychological Foundations in Sport and Exercise Science	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sport Psychology, Exercise Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in sport psychology or exercise science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in sport psychology related fields.
HPSS 5006 Ethics, Law, and Professional Practice in Sport and Exercise Science	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sport Science, Ethics, Law, Exercise Science, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in sport science or professional practice, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in sport science related fields.
HPSS 5010 Introduction to Epidemiology	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Epidemiology, Public Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or epidemiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5050 Sports and School Law	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Law, Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or juris doctor, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5120 Thesis Writing	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or exercise science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5130 Techniques of Cognitive & Kinetic Appraisal	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Kinesiology, Exercise Science, Rehabilitation Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or kinesiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5200 Corrective Exercise	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Kinesiology, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in exercise science or corrective exercise, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in exercise science related fields.
HPSS 5210 Advanced Biomechanics in Sport and Exercise	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Biomechanics, Kinesiology, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in biomechanics or kinesiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in biomechanics related fields.

HPSS 5220 Applied Strength and Conditioning	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Strength and Conditioning, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in strength and conditioning, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in strength and conditioning related fields.
HPSS 5230 Sport Periodization and Program Design	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Programming, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in exercise programming or kinesiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in exercise science related fields.
HPSS 5240 Kinesmetrics	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Kinesiology, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in kinesiology or measurement science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in kinesiology related fields.
HPSS 5250 Strength and Conditioning Practicum #1	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in strength and conditioning or coaching, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in coaching related fields.
HPSS 5260 Strength and Conditioning Practicum #2	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in strength and conditioning or coaching, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in coaching related fields.
HPSS 5310 Aging & Wellness	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Kinesiology, Exercise Science, Rehabilitation Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or kinesiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5320 Wellness for Special Populations	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or kinesiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5330 Sports Psychology	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Psychology, Exercise Science, Kinesiology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5350 Advanced Exercise Physiology	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Physiology, Kinesiology, Exercise Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or exercise physiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.

HPSS 5360 Body Composition & Assessment	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Physiology, Sport Science, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or exercise physiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5370 Fitness Evaluation & Prescription	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Physiology, Kinesiology, Sport Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or exercise physiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5400 Athletic Injury & Evaluation	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Kinesiology, Exercise Science, Rehabilitation Science, Sports Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or kinesiology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5470 Sports Nutrition	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Nutrition, Exercise Physiology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or human nutrition and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5500 Problems in Sport Management	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sports Management, Business Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or sport management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5510 Financial Administration of Sport	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sports Management, Business Administration, Finance, Economics	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or sport management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5600 Sport Facilities Design & Management	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sports Management, Architecture	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or sport management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5620 Sport Marketing & Public Relations	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sports Management, Marketing, Communications	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or sport management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.

HPSS 5650 Sport Policies and Procedures	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or sport management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5700 Special Topics	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or biomedical sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5700 Special Topics	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or biomedical sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5710 Curriculum, Instruction & Supervision	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sport Education, Curriculum Instruction (Exercise Science)/Educational Leadership and Supervision	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or sport education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5800 Strategic Management	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Sports Management, Business Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or sport management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5910 Independent Study	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or biomedical sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 5930 Internship	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or biomedical sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
HPSS 6020 Project	Earned Doctorate degree in Human Performance and Sport Sciences in the teaching discipline or a closely related discipline.	Exercise Science, Sports Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human performance and sport sciences or biomedical sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human performance and sport sciences related fields.
