

Course Name	Faculty Qualifications Needed	Related Disciplines	Acceptable Alternative Qualifications
ECFS 2010 Principles and Concepts of Child Development	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Science/Education, Health Sciences, Family Studies, Human Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 3020 Middle Childhood and Adolescence	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Human Sciences, Adolescent Development, Family & Consumer Education, Health Sciences, Family Studies	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 3520 Observation, Participation and Assessment in Early Childhood Settings	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Education, Health Sciences, Family Studies, Human Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 3530 Infant Clinic	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Education, Health Sciences, Family Studies, Human Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 3600 Methods of Creative Expression	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Social Work, Family & Consumer Education, Health Sciences, Family Studies, Human Development	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 3710 Human Sciences III: Adulthood	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 4000 Behavior Management and Guidance	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Educational Psychology, Early/Adolescent Childhood Education, Special Education, Human Development, Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children in a childcare setting, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.

ECFS 4520 Early Childhood Administration and Leadership	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Educational Leadership and Administration	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and significant experience working with children in a childcare setting, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 4620 Current Topics and Issues in Early Childhood Education	Earned Masters or Doctorate degree in Human Sciences or Early Childhood Education in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Special Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and significant experience owning or leadership within a childcare business relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 4630 Family Relationships	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Marriage and Family Therapy/Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 4650 Parenting/Practical Steps to Childrearing	Earned Masters or Doctorate degree in Human Sciences or Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Family Science, Marriage and Family Therapy/Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
ECFS 4660 Internship or Fieldwork in Child Development	Earned Masters or Doctorate degree in Human Sciences or Early Childhood Education in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Child Development, Human Sciences and Family Science, Psychology, Social Work	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Sciences, Child Development and/or significant experience working with children under the age of eight, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FACS 1010 Family and Consumer Sciences as a Profession	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences, Family Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FACS 3500 Profession Ethics and Conduct	Earned Master's or Doctorate degree in Family and Consumer Sciences; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Ethics, Human Services, Human Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.

FACS 3720 Special Topics in FCS	Earned Masters or Doctorate degree in Food and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences, Nutrition, Dietetics, Animal/Food Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FACS 3730 Entrepreneurship in Family and Consumer Sciences	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Business Administration, Family Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FACS 4500 Senior Project Writing	Earned Masters or Doctorate degree in Family and Consumer Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Education, Health Sciences, Family Studies, Human Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FACS 4600 Field Experiences in Food Service	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences, Dietetics, Public Health, Nutrition	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 1110 Textiles	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 1120 Cultural Interpretation of Dress	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 2030 History of Costume	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 2110 Principles of Apparel Construction	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.

FASH 3000 Apparel Quality Analysis	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 3120 Applied Dress Design	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 3210 Tailoring	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 3220 Flat Pattern Adaptation	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 4000 Display Merchandising	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandizing, Retail Management, Marketing, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 4030 Clothing Economics	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Economics, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 4130 Dress Design and Draping	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 4140 Fashion Merchandising Seminar	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandising, Economics, Agricultural Economics, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.

FASH 4150 Internship	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Economics, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 4440 Fashion Promotions and Events	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandising, Marketing, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FASH 4440 Fashion Promotions and Events	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandising, Marketing, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 3210 Family Resource Management	Earned Masters or Doctorate degree in Family and Consumer or Human Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 3500 Fundamentals of Family Financial Planning	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 3600 Insurance Planning for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 3700 Investment Planning For Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 4100 Income Tax for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.

FERM 4200 Retirement Planning for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 4300 Estate Planning for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 4330 Consumer Education	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
FERM 4800 Family Financial Planning Capstone Class	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 1110 Food Principles and Meal Management	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences, Dietetics, Food and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 2010 Basic Human Sciences Principles	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences, Dietetics, Food and/or Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 2110 Elementary Nutrition	Earned Master's or Doctorate degree in Nutrition in the teaching discipline; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Food Science, Health Sciences, Dietetics, Public Health Nutrition	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 2300 Introduction to Food and Culture	Earned Master's or Doctorate degree in Nutrition, Food Science, Cultural Anthropology Public Health in the teaching discipline; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Food Science, Health Sciences, Dietetics, Public Health Nutrition	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.

NUFS 3110 Food Science	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences, Dietetics, Food and/or Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 3120 Human Sciences in the Global Community	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences, Dietetics, Food and/or Consumer Science, Public Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 3130 Foodservice Equipment and Cost Control	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Hospitality Management, Food Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 3330 Maternal and Child Human Sciences	Earned Masters or Doctorate degree in Nutrition or Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Dietetics, Maternal and Child Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 3350 Life Span Human Sciences	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Nutrition, Dietetics, Maternal and Child Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 3830 Human Sciences, Assessment, Behavior Change, and Counseling	Earned Masters or Doctorate degree in Nutrition or Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Behavior Analysis	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 4110 Advanced Human Sciences	Earned Masters or Doctorate degree in Nutrition or Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Family and Consumer Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 4120 Quantity Food Procurement and Production	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Food Science, Agricultural Economics, Hospitality Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.

NUFS 4121 Quantity Food Production Lab	Earned Master's or Doctorate degree in Nutrition, in the teaching discipline; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Hospitality Management, Culinary Arts, Food Science, Dietetics	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 4520 Foodservice Systems Management	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Food Science, Business Administration, Hospitality Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 4530 Medical Human Sciences Therapy	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Family and Consumer Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 4540 Medical Human Sciences Therapy II	Earned Masters or Doctorate degree in Human Sciences in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Family and Consumer Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
NUFS 4620 Special Problems in Foods and Human Sciences	Earned Masters or Doctorate degree in Food and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Sciences and Dietetics, Food and Animal Science, Public Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in human sciences or family and consumer sciences, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in human science related fields.
