

Course Name	Faculty Qualifications Needed	Related Disciplines	Acceptable Alternative Qualifications
ECFS 2010 Principles and Concepts of Child Development	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Education, Health Sciences, Family Studies, Human Development	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or child development, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 3020 Middle Childhood and Adolescence	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Adolescent Development, Family & Consumer Education, Health Sciences, Family Studies	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Developmental Psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 3520 Observation, Participation and Assessment in Early Childhood Settings	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Education, Health Sciences, Family Studies	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or early childhood education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 3530 Infant Clinic	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Education, Health Sciences, Family Studies, Human Development	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 3600 Methods of Creative Expression	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or communication arts, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 3710 Human Development III: Adulthood	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or human development and family studies, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 4000 Behavior Management and Guidance	Earned Masters or Doctorate degree in Behavior Analysis in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Educational Psychology, Early/Adolescent Childhood Education, Special Education, Human Development, Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or educational psychology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 4520 Early Childhood Administration and Leadership	Earned Masters or Doctorate degree in Early Childhood Education in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Educational Leadership and Administration, Social Work	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or early childhood education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.

ECFS 4620 Current Topics and Issues in Early Childhood Education	Earned Masters or Doctorate degree in Early Childhood Education in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Early Childhood Education, Developmental Psychology, Special Education	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or early childhood education, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 4630 Family Relationships	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Marriage and Family Therapy/Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or human development and family science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 4650 Parenting/Practical Steps to Childrearing	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Family Science, Marriage and Family Therapy/Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or human development and family science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
ECFS 4660 Internship or Fieldwork in Child Development	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Child Development, Human Development and Family Science, Psychology, Social Work	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or child development, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FACS 1010 Family and Consumer Sciences as a Profession	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Family Science, Marriage and Family Therapy/Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or family Human Development and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FACS 3500 Profession Ethics and Conduct	Earned Master's or Doctorate degree in Family and Consumer Sciences; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Ethics, Human Services, Human Science	Acceptable alternative qualifications include documented professional experience in fields requiring adherence to ethical standards (e.g., counseling, social work, family services), with demonstrated expertise in teaching or applying professional ethics, conflict resolution, and codes of conduct. Experience in ethics training, curriculum development, or peer-reviewed publications in applied ethics or family services will also be considered.
FACS 3720 Special Topics in FCS	Earned Masters or Doctorate degree in Food and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Nutrition, Dietetics, Animal/Food Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or family Human Development and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.

FACS 3730 Entrepreneurship in Family and Consumer Sciences	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Business Administration, Family Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or family Human Development and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FACS 4500 Senior Project Writing	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology, Early Childhood Education, Family & Consumer Education, Health Sciences, Family Studies, Human Development	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or human development and family science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FACS 4600 Field Experiences in Food Service or Human Development	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Dietetics, Public Health, Nutrition	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or family Human Development and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FASH 1110 Textiles	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or textile science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FASH 1120 Cultural Interpretation of Dress	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Cultural Studies, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FASH 2030 History of Costume	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Cultural Studies, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FASH 2110 Principles of Apparel Construction	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion design, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FASH 3000 Apparel Quality Analysis	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion design, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.

FASH 3120 Applied Dress Design	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion design, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FASH 3210 Tailoring	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion design, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FASH 3220 Flat Pattern Adaptation	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion design, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FASH 4000 Display Merchandising	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandising, Retail Management, Marketing, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion merchandising, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FASH 4030 Clothing Economics	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Economics, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Economics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FASH 4130 Dress Design and Draping	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion design, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FASH 4140 Fashion Merchandising Seminar	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandising, Economics, Agricultural Economics, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion merchandising, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
FASH 4150 Internship	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Design, Textile Science, Economics, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion design, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.

FASH 4440 Fashion Promotions and Events	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandising, Marketing, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion merchandising, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FASH 4440 Fashion Promotions and Events	Earned Masters or Doctorate degree in Fashion Design/Merchandising in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Fashion Merchandising, Marketing, Textile Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or fashion merchandising, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 3210 Family Resource Management	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or family Human Development and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 3500 Fundamentals of Family Financial Planning	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or family and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 3600 Insurance Planning for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or insurance and risk management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 3700 Investment Planning For Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or finance, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 4100 Income Tax for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or finance, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 4200 Retirement Planning for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or finance, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.

FERM 4300 Estate Planning for Families	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or finance, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 4330 Consumer Education	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or family Human Development and consumer science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
FERM 4800 Family Financial Planning Capstone Class	Earned Masters or Doctorate degree in Family and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Consumer Science, Resource Economics, Home/Family Economic	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or finance, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
NUFS 1110 Food Principles and Meal Management	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Dietetics, Food and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
NUFS 2010 Basic Human Development Principles	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Dietetics, Food and/or Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
NUFS 2110 Elementary Nutrition	Earned Master's or Doctorate degree in Nutrition in the teaching discipline; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Food Science, Health Sciences, Dietetics, Public Health Nutrition	Acceptable alternative qualifications include registered dietitian (RD or RDN) certification with documented professional experience in community nutrition, clinical dietetics, or nutrition education. Additional qualifications may include experience in teaching foundational nutrition concepts, curriculum development, or publishing peer-reviewed work in the field of nutrition or public health.
NUFS 2300 Introduction to Food and Culture	Earned Master's or Doctorate degree in Nutrition, Food Science, Cultural Anthropology Public Health in the teaching discipline; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Food Science, Health Sciences, Dietetics, Public Health Nutrition	Acceptable alternative qualifications include substantial professional or academic experience in nutrition education, food systems, or cross-cultural dietary analysis. Demonstrated expertise in global food environments, cultural dietary practices, and food policy—such as research, curriculum development, or published work in food and culture studies—will also be considered. Experience conducting field-based nutrition or food access assessments is an asset.

NUFS 3110 Food Science	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Dietetics, Food and/or Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or food science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
NUFS 3120 Human Development in the Global Community	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development, Dietetics, Food and/or Consumer Science, Public Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
NUFS 3130 Foodservice Equipment and Cost Control	Earned Masters or Doctorate degree in Nutrition in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Hospitality Management, Food Science, Family and Consumer Science	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or hospitality management, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
NUFS 3330 Maternal and Child Human Development	Earned Masters or Doctorate degree in Nutrition or Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human/Child Development and Dietetics, Maternal and Child Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or public health, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
NUFS 3350 Life Span Human Development	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Nutrition, Dietetics, Maternal and Child Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
NUFS 3830 Human Development, Assessment, Behavior Change, and Counseling	Earned Masters or Doctorate degree in Nutrition or Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human/Child/Adolescent Development, Behavior Analysis, Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
NUFS 4110 Advanced Human Development	Earned Masters or Doctorate degree in Nutrition or Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.
NUFS 4120 Quantity Food Procurement and Production	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Food Science, Agricultural Economics, Hospitality Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or food science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development-related fields.

NUFS 4121 Quantity Food Production Lab	Earned Master's or Doctorate degree in Nutrition, in the teaching discipline; or Master's or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Hospitality Management, Culinary Arts, Food Science, Dietetics	Acceptable alternative qualifications include extensive professional experience in quantity food production, food safety, or foodservice operations, particularly in institutional or commercial kitchens. Documented experience in managing foodservice staff, applying HACCP protocols, developing standardized recipes, or teaching lab-based food production courses will also be considered. Certification such as ServSafe or Certified Dietary Manager may support alternative qualification.
NUFS 4520 Foodservice Systems Management	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Food Science, Business Administration, Hospitality Management	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or food science, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
NUFS 4530 Medical Human Development Therapy	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
NUFS 4540 Medical Human Development Therapy II	Earned Masters or Doctorate degree in Human Development in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Developmental Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
NUFS 4620 Special Problems in Foods and Human Development	Earned Masters or Doctorate degree in Food and Consumer Science in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in Human Sciences.	Human Development and Dietetics, Food and Animal Science, Public Health	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in Human Development or Human Development and dietetics, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in Human Development related fields.
