

Course Name	Faculty Qualifications Needed	Related Disciplines	Acceptable Alternative Qualifications
CRCS 1000 Introduction to Cardio-Respiratory Care Sciences	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 2014 Cardio-Respiratory Care Sciences Clinical I / Laboratory	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 2030 Pulmonary Function Testing and Evaluation	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 2031 Pulmonary Function Testing and Evaluation Laboratory	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 2044 Cardio-Respiratory Care Sciences Clinical II	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 2110 Pulmonary Function in Disease	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 2120 Respiratory Pharmacology	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.

CRCS 2320 Cardiopulmonary/Renal Physiology	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3010 and CRCS 3011 Cardio-Respiratory Care Sciences Technology I	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3015 and CRCS 3151 Mechanical Ventilation I and Lab	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3016 CRCS 3161 Mechanical Ventilation II and Lab	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3020 and CRCS 3021 Cardio-Respiratory Care Technology II and Laboratory	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3024 Cardio-Respiratory Care Sciences Clinical III	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3030 Critical Care	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.

CRCS 3040 Neonatal/Pediatric Respiratory Care	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3050 Case-Based Seminar	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3110 and 3120 Professional Exams Seminars	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 3224 Cardio-Respiratory Care Clinical IV	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 4224 Advanced Critical Care Management	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 4264 Advanced Pulmonary Function Testing and Pulmonary Rehabilitation	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 4320 Pulmonary Rehabilitation and Home Care	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.

CRCS 4410 Cardio-Respiratory Care Sciences Management Concepts	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
CRCS 4500 Senior Project	Earned Masters or Doctorate degree in Respiratory Care in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Pulmonology, Cardiology, Critical Care Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in respiratory care, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in respiratory care related fields.
NURS 1007 LPN Transition	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 1010/1014 Fundamentals of Nursing	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 1200 Fundamentals of Health Assessment	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 1300 Pharmacology of Drug Therapy	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Health Sciences, Medicine, Pharmacology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 1020/1024 Adult Health Nursing 1	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 2010/2014 Family and Behavioral Health	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine, Psychology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.

NURS 2020/2024 Adult Health Nursing II and Management Concepts	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 1000 Introduction to Nursing I	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3000 Professional Perspectives in Nursing	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3040 Introduction to Nursing Practice	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3080 Pharmacology	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine, Pharmacology	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3100 Health Promotion, Maintenance, and Restoration I	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3250 Health Assessment	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3320 Professionalism in Nursing	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.

NURS 3260 Gerontological Nursing Concepts	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3340 Mental Health Nursing	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4140 Health Promotion, Maintenance, and Restoration II	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4220 Nursing Research	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4360 Community Health Nursing	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4380 Maternal Child Nursing	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4330 Leadership and Management	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4400 Integration of Concepts	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.

NURS 4544 Health Promotion, Maintenance, and Restoration III Clinical	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4500 Issues in Nursing & Healthcare	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3020 Introduction to Nursing Informatics	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine, Bioinformatics	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4384 Maternal Child Health Nursing Clinical	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3041 Introduction to Nursing Practice Lab I	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3044 Introduction to Nursing Practice Clinical	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3101 Health Promotion, Maintenance, and Restoration I Lab	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3104 Health Promotion, Maintenance, and Restoration I Clinical	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.

NURS 3251 Health Assessment Lab	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 3344 Mental Health Nursing Clinical	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4144 Health Promotion, Maintenance and Restoration II Clinical	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4540 Health Promotion, Maintenance, and Restoration III	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Public Health, Health Sciences, Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4364 Community Health Nursing Clinical	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
NURS 4700 Study Abroad	Earned Masters or Doctorate degree in Nursing in the teaching discipline; or Masters or Doctorate degree with a concentration in the teaching discipline with at least 18 graduate semester hours in the teaching discipline.	Medicine	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in nursing, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in nursing related fields.
