Course Name	Faculty Qualifications Needed	Related Disciplines	Acceptable Alternative Qualifications
SPTH 5110 Methods of Research	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5120 Thesis Writing	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5250 Methods of Speech and Hearing Services in the School Setting	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5500 Regional Dialects and Urban Language Studies	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5510 Advanced Clinical Practicum: Speech-Language	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5520 Studies in Articulation	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5530 Neuroanatomy and Neurophysiology of Speech and Hearing	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5560 Experimental Phonetics	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5570 Anatomy and Physiology of Speech	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5580 Voice Disorders	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5600-5605-5606-5607 Independent Study	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5630 Adult Aphasia	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5670 Introduction to Human Communication and Its Disorders	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.

SPTH 5710 Advanced Clinical Practicum: Audiology	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5740 Advanced Audiology	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5750 Seminar in Aural Rehabilitation	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 5800 Speech Science & Instrumentation	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6400 Neurogenic (Motor) Speech Disorders	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6420 Multicultural Literacy and Cultural Diversity	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6430 Clinical Practicum with Minority Children	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6530 Seminar in Stuttering	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6540 Dysphagia	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6550 Seminar in Language Development	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6560 Studies in Language Disorders	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6545 Dysphagia	Earned Doctorate degree in Speech Pathology and Audiology in the teaching discipline or a closely related discipline.	Linguistics, Speech Language and Hearing Science, Communication Sciences and Disorders	Acceptable alternative qualifications in Speech Pathology and Audiology include substantial professional experience working as a hearing aid specialist, audiology assistant, or clinical, pediatric, forensic audiologist or related field. Relevant professional licensure or certifications, and notable scholarly work such as published articles or conference presentations in Speech Pathology and Audiology.
SPTH 6600 Special Topics In Communication Sciences and Disorders	Earned Doctorate degree in Speech Pathology in the teaching discipline or a closely related discipline.	Audiology, Communication Sciences	Acceptable alternative qualifications include substantial professional experience (e.g., publications, awards) in communication sciences or speech pathology, relevant professional licensure/certifications, and notable scholarly work such as published articles or conference presentations in communication sciences related fields.
