| Noon-1:00PM | LUNCH | |
| 1:00-6:00PM | Hands-On Artificially Inseminating Goats with Teresa Wade | |

If you are going to artificially inseminate a goat(s) - bringing your own, you must bring a doe that is in heat, an Artificial Insemination stand or a grooming/milking stand if you have one (let us know if you don't) and your own AI equipment.

If you do not have access to a doe, or cannot bring a doe, please let us know right away so we can reserve one for you and cycle the doe in time for the clinic. It will be your responsibility to reimburse the expenses incurred for the CIDR(s) and drugs used to estrus synchronize the doe.

If you are in need of CIDRs, prostaglandin and PG600, please contact your veterinarian or Teresa Wade so they can be shipped to you on time.

Bring your Artificial Insemination kit. If you don't have one, but would like to buy one, contact www.biogenicsltd.com or Teresa Wade at 208-756-6500. If you do not want to purchase a full kit, you can purchase the disposable equipment you would need for the day from BiogenicsLTD.
