J-1 EXCHANGE VISITOR POLICY

PURPOSE

The purpose of this policy is to set forth processes and procedures for requesting approval to invite J-1 Exchange visitors to the University. It is necessary that the University maintain a record of such visitors and review documentation or agreements in order to protect the University's interests, including intellectual property. Federal agencies have placed great emphasis on regulating access to research facilities when that research access has implications under federal export control regulations. Requests to host exchange visitors must be complete and adhere to all policies and procedures prior to review by the Office of International Affairs.

This policy applies to any TSU department that would like to sponsor exchange visitors from foreign countries. Exchange visitors do not carry any official status of employment with the University and must have formal University sponsors or sponsorship from their home country/institution.
